DEFENCE IS ATTACKING EVIDENCE OF ORCHARD

Witnesses Testify as to Threats He Made Against Steunenberg

HIS RELATIONS WITH DETECTIVES

Depositions Taken at San Francisco in Connection with the Bradley Incident

Boise, June 25.—The first direct testimony in defence of Wm. D. Haywood was offered today. It was chiefly directed toward showing that Harry Orchard, after blaming ex-Governor Steunenberg for the loss of his interest in the Hercules mine, threatened to have revenge by killing him, and that the conduct of Orchard and K. C. Stedding before the Independence depot explosion, when they were frequently seen together, afterwards when Sterling called off a bloodhound that was following Orchard's trail, justified the interference that the mine owners inspired the crime. The first witness for the defence was preceded by a further examination of Orchard, to permit the defence to complete its formal basis for impeachment. These were nearly all relative to the contention that Orchard killed Steunenberg because of an alleged grudge growing out of the sale of his interest in the Hercules mine.

Orchard, who came into court under protection of the squad of guards that always acts as his escort, maintained his old calmness and spoke in the same soft voice that he did recently. He again denied that he ever threatened to kill Steunenberg because of the Hercules mine, and again asserted that he sold his interest in the mine two years before the trouble with drove him out of northern Idaho. Two witnesses called later in the day swore that Orchard did threaten to kill Steunenberg because of the Hercules mine matter, and the defence has paved the way for such testimony from a dozen more witnesses.

The two heard today were F. R. Redd, once of Cripple Creek, and now of Goldfield, Nevada, and Charles A. Sullivan, formerly of Cripple Creek and now a watchman in the Brown Palace hotel, in Denver. Redd testified that he heard Orchard make the statement and the threat in the miners' hall in Cripple Creek and Sullivan swore that while he and Orchard were fellow boarders at John Neville's place in Cripple Creek, Orchard repeatedly said that but for Steunenberg he would be a rich man and that he intended to kill him. The cross-examination shows that both witnesses were members of the Federation of Miners, and that Sullivan was a friend of Haywood, Moyer and many of the union leaders at Cripple Creek.

Dr. I. McGee, mining broker, of the Coeur d'Alene, swore that Orchard told him in 1904 at Wallace, Idaho, that he was a spotter for a detective agency. Orchard denied this conversation and denied that he was in Idaho at any time in 1904.

Several witnesses, principally women, who kept lodging houses at Cripple Creek, testified to Orchard's being in conference at various times with Sterling, the detective for the mine owners' association, prior to the Independence depot explosion, and there was a further showing that meetings took place between Orchard and D. C. Scott, the detective in the employ of the Florence and Cripple Creek Railroad company.

FELL 700 FEET

Cage Tender Killed in Mine Shaft at Rossland

Rossland, June 25.—John Leveovic, cage tender at the White Bear mine, was instantly killed in the shaft at 7:05 this morning. He went down in the skip and started the cage on the lower levels, and then came up to the 300 foot level and rang for the cage, so that he could go up. The cage was loaded with steel and tools and lowered to the 300 foot level.

PASSENGERS AND CREW LOST

Wreck of Coasting Steamer in South American Waters

Santiago, Chile, June 24.—The Pacific Steam Navigation company's coasting steamer Santiago, a vessel of 1,366 tons trading between Panama and the south coast of South America, was wrecked in a heavy squall fifty miles north of Corral. One passenger and one officer are known to have been saved. The remainder of the passengers and crew are reported to have perished.

GIVES PLEASURE TO JAPANESE NATION

Action of British Government in Sending Warship for Prince Appreciated

The action of the British government in sending the British cruiser *Esquimaux*—Japanese newspapers incorrectly state the vessel was ordered to Vancouver—has pleased the Japanese, according to vernacular newspapers received in yesterday's mails. The Japan Times says anent the dispatch which reached Japan ordering the Monmouth to Victoria.

"It would be really superfluous to put on record that the intimation contained in the dispatch has been received with the most profound sense of appreciation, alike—we may be allowed to say—by our imperial family and their loyal subjects. Prince Fushimi, after being accorded imperial salutes from the forts and warships and hearty greetings from royal personages at Dover, arrived in London after dusk on the 6th of last month, and in spite of the lateness of the hour he was not only received by the king at once, but his majesty immediately afterwards visited his highness at St. James palace. Thus began the extraordinary display of courtesy and cordiality, which characterized the reception extended to the prince during his official stay in London and also during his travels in England and Scotland. How grand and brilliant and varied were the numerous functions given in his honor, and more gratifying still, how genuine and full hearted, was the hospitality shown him throughout, need not be retold; the daily telegrams of the past four weeks have told their story. Suffice it to say that, piecemeal as the dispatches have necessarily been, they have carried home to us an impression that the prince was being received not so much as a distinguished foreign visitor but rather as if he were a most popular member of England's reigning house both by the court and the public, and that the great and important government works being thrown open to him, to say nothing of the many ways in which his visit was made pleasant and memorable to him. It is this kind of treatment of our emperor's envoy that touches us and deepens in our mind the consciousness of the truth, reality and solid-mindedness of the Anglo-Japanese alliance. If we have felt overwhelmed by what we considered as quite unexpected about the depth of cordiality and consideration which have centered round our prince for nearly a month past, this last act of graciousness by King Edward, that shall be placed as a bonus in front of E. W. Bradley's door, has been here yesterday. W. N. Linforth, who owned the building and secured a \$10,000 judgment against the gas company for damages caused by the explosion, stated that gas leaks were found later and that before the explosion the house smelt of gas for some time. His testimony was corroborated in certain details by Mrs. Richard and Mrs. Cummings, the tenants.

FRANCE AND SPAIN.

Paris, June 25.—The official text of the Franco-Spanish understanding was published today. It declares that each government is firmly resolved to maintain intact its present and future possessions in the Mediterranean and Atlantic, and binds each country in circumstances arising which threaten to modify the status quo to consult the other with the view of "common action." The latter is the most important provision, amounting practically to a military convention for the mutual guarantee of their possessions.

JAPAN AND GERMANY.

Island Empire Making Overtures to the Kaiser.

Kiel, Germany, June 25.—The presence of the two Japanese warships, the *Ambassador* and several members of the Japanese legation here, is regarded as having a distinctly political character, possibly as a demonstration of friendship in preparation for making proposals to Germany for an agreement concerning the Far East similar to that recently arranged between Japan and France. Vice Admiral Hulin, in command of the vessels, brought Emperor William an ancient piece of Japanese bronze, an eagle with outspread wings perched on the point of a cliff, together with a message from the Japanese Emperor expressing the latter's goodwill and friendship. At the dinner last night the Emperor gave Ambassador Towor the first seat on the left and the Japanese ambassador the first seat on his right.

Railway vs. City

Buffalo, June 25.—The Wabash railroad today demanded the return of \$301,000 paid to the city for a large tract of land known as the Hamburg canal strip, purchased from the city some months for terminal, claiming that the city has not delivered possession of the property, has not delivered a clear title, it has refused to approve plans for altering existing viaducts and that the New York Central maintains tow tracks across the property. Corporation Counsel Deshecker refused to return the money, claiming that the city has fulfilled all its obligations. It is probable that the matter will be taken to the courts.

PROPOSED SUBSIDY FOR FAST ATLANTIC SERVICE

Canada and Great Britain Each to Pay \$1,125,000 per Annum

PROVINCIAL SUBSIDY QUESTION

Sir Frederick Banbury Moves Amendment Regarding British Columbia's Income

Ottawa, June 25.—It is learned on the best of authority that the suggested subsidy for a 25-knot steamship service across the Atlantic has been suggested by Sir Wilfrid Laurier at the closing session of the Imperial conference is £450,000, or \$2,250,000 per annum for ten years, half to be born by the British and Canadian governments respectively. This means a Canadian contribution of \$1,125,000 yearly. Sir Charles Tupper in 1896 had made an arrangement with the Allans for a 20 knot service, which was to cost Canada \$750,000 yearly and Great Britain \$375,000. It was turned down, however, by the Laurier government.

A special cable says: "In the British house of commons in committee on the British North America act amendment bill, Sir Frederick Banbury moved as an amendment that the period during which the annual grant of \$100,000 is to be made by the Dominion to British Columbia should be extended from ten to thirty years. Sir Frederick was speaking when the house adjourned. Winston Churchill said it was a most disgraceful and flagrant act of obstruction." The longshoremen have notified the minister of labor that they will not accept the award of the board of conciliation and arbitration, of which Sir Frederick was speaking when the house adjourned. Winston Churchill said it was a most disgraceful and flagrant act of obstruction." The longshoremen have notified the minister of labor that they will not accept the award of the board of conciliation and arbitration, of which Sir Frederick was speaking when the house adjourned. Winston Churchill said it was a most disgraceful and flagrant act of obstruction."

Longshoremen Dissatisfied.

Montreal, June 25.—Longshoremen have written to the Minister of Labor that they will not be bound by the decision of the conciliation board, which practically gave them all they asked.

Tornado in Kansas

Medicine Lodge, Kas., June 24.—Three distinct tornadoes struck Medicine Lodge late last night, destroying twenty-five houses in the northern part of the town. Six persons were injured seriously and one is missing.

After Telegraph Companies

Washington, June 25.—The central labor union of Washington sent a telegram to President Roosevelt requesting that he institute an inquiry to determine if the telegraph companies have entered into a conspiracy in restraint of trade in violation of the Sherman Anti Trust law. At the request of the American Federation of Labor, similar action, it is said, will be taken by all the labor organizations in the United States.

NICARAGUA DISTURBER OF CENTRAL AMERICA

Washington Government Deems It Advisable to Send a Cruiser Down

Washington, June 25.—The possibility of serious trouble in Central America growing out of the disturbed conditions existing there incidental to the alleged ambition of President Zelaya, of Nicaragua, to form a union of Central American States, has caused the United States administration to despatch the fine new cruiser *Milwaukee* to that region. Orders for her to proceed forthwith from the Mare Island Navy Yard, California, went forward from the Navy Department today. The vessel is in command of Commander C. A. Cope, and she will go to La Union, San Salvador.

The collier *Saturn* has also been directed to proceed to La Union, and from this vessel, the *Milwaukee* and the gunboat *Forkton*, which is now at Acjutula, will conduct the stay of the *Milwaukee* in Central America waters is problematical, and will in a measure depend upon the conditions that develop in that part of the world. She goes ostensibly for the protection of American interests, which are threatened because of the situation as it now exists. The cruiser *St. Louis* now on her way to a Brazilian port, is en route to the Pacific coast, and will arrive at Central America waters in about two months. It may be that she will relieve the *Milwaukee* in the event that the administration decides to have that vessel return north, and it is deemed necessary to continue the presence of two American vessels in that section.

Colored Preacher Arrested.

Brantford, June 25.—Rev. G. Taylor, of Woodstock, member and delegate of the B. M. E. colored conference assembled in this city, is under arrest in Montreal. In his official capacity, it is alleged, he collected certain funds for which he did not account.

Ontario Opposition Lader.

Brockville, June 25.—Geo. P. Graham who returned from the west on Saturday night had his attention called to a news item stating him for a position in the Dominion government. He said: "I'm too busy to talk about it, but I assure you the whole thing is news to me."

A Destructive Storm.

Guelph, June 24.—There was a very heavy thunderstorm in this vicinity Saturday afternoon. Rain followed in torrents and hail as large as pigeon eggs in some localities. The rain was light in the city. Considerable damage was done in the country. Many turnip fields were washed out, grain was cut by the hail, trees, telegraph and telephone pole were struck.

King Edward's Levee

London, June 25.—King Edward held his last levee for the season at the St. James Palace at noon. Indian Mutiny veterans again supplying the most striking feature. The second group of survivors of the mutiny including seventy officers of whom no fewer than thirty-three were generals, and several civilians, presented by Field Marshal Sir Evelyn Wood, made a brilliant show, all wearing full dress uniforms. Ambassador Whitelaw Reid welcomed the ambassadors who attended the luncheon, and presented Brigadier General Henry Cook. There was a large attendance, among those present being J. Pierpont Morgan, who had been present at a previous levee.

REVOLUTION GROUPS ARE EXTREMELY ACTIVE

Officers and Clerks Are Implicated—Desperate Attack on a Prison

London, June 25.—A dispatch to a news agency from Odessa says it is authoritatively reported that sixty officers of the southern military district, several of them connected with the Odessa garrison, have been arrested.

St. Petersburg, June 25.—The police last night searched a department of the war ministry and found it to be headquarters of one of the revolutionary groups. Much literature was seized. The building was cordoned by police during the search, but only one arrest was made.

Telegraphers' Strike

San Francisco, June 25.—The situation in the telegraphers' strike remains unchanged today. The company officials said that the refusal of the men to return to work yesterday finally severed the bond heretofore existing.

Rubber Monopoly.

Montreal, June 25.—News has leaked out that the U. S. Rubber company has practically a monopoly of the rubber manufacturing trade of the United States. It has secured a controlling interest in the Canadian Consolidated Rubber company, which will practically give the new amalgamation a monopoly of the rubber manufacturing trade of Canada.

Crisis in Venezuela

Caracas, Venezuela, June 22, via Williamsport, June 25.—The Cabinet resigned today, owing to the action of Congress in condemning the policy of the Minister of Finance. The heads of departments are transacting the Government business.

JAPAN TAKES MEASURES TO FORCE CHINA'S HAND

A New Quarrel Breaks Out Over Yalu River Timber Operations

THE USUAL CELESTIAL EVASIONS

Japan's Policy of Compromise Now Changed to One of Coercion, and China Wilts

Mukden, June 25.—Without waiting for an announcement of the policy of the new Manchurian administration Japan, on the ground of defense of her tariff interest has begun a programme apparently directed toward forcing action by China. It is reported that the Pekin government already has asked to re-open negotiations toward reaching an agreement in the timber dispute. All Manchurian industries on the Yalu river are in suspense on this account.

General Kojima, military head of the timber bureau, is having one-fourth of all timber. Three thousand rafts are tied up for the trading season, and six thousand other rafts are involved. As ten thousand unemployed are now in disorder, General Kojima today issued a proclamation intended to relieve the situation.

China's default in the negotiations and its support of a large timber company in defiance of Japanese protests have rendered void the plan of Kojima for stopping Chinese timber operations, which he holds to be illegal. China's course since May has exposed her to coercion, and caused the alteration of the Japanese Manchurian policy from compromise to force.

Some time ago the Chinese government addressed to Japan a complaint on the subject of the Yalu timber-felling industry. In this complaint it claimed that Japan, without waiting for the conclusion of a convention with China regulating the conduct of the industry, had given a concession to a Mr. Kojima who is now engaged in exploiting the forests. Japan's reply was very pointed. She said that the so-called Mr. Kojima is Major-General Kojima, who has been employed ever since the days of the war in superintending the timber-felling operations undertaken by the military in that quarter, which operations will be continued until China, implementing her treaty with Japan, comes to an agreement which will warrant the substitution of civil for military authority. The reply then went on to say that the Chinese have attempted by act of violence to obstruct the timber-felling operations on the Korean bank of the Yalu, and that the Japanese have been compelled to resort to strong measures of self protection. This is a serious ground of complaint against China, and Japan formulates her protest in strong terms. Finally she points out that the Chinese authorities have granted an afforestation charter to a company of their own countrymen for exploiting the woods along the Hun river, which is an affluent of the Yalu, and that they have thereby flagrantly violated the treaty which requires that work of this kind in the Yalu region shall be carried on jointly. Peking has been repeatedly informed that so soon as ever effective steps are taken to implement the Peking treaty of December, 1905 the timber-felling operations undertaken by the military on the right bank of the Yalu will cease and the whole enterprise will be handed over to the company jointly organized in compliance with that treaty. But China, instead of carrying out her conventional duties, confines herself to formulating groundless protests.

Against Railway Merger

Boston, June 25.—The bill restraining the consolidation of the Boston and Maine railroad with the New York, New Haven and Hartford railway until after the next legislative session has passed the lower house of the legislature by a unanimous vote today, after a referendum to the people had been killed by 81 to 135. The bill goes to the senate for concurrent action.

TRIBUTE TO MARK TWAIN

Pilgrims' Luncheon Occasion for Two Noted Speeches

London, June 25.—The finest tribute which Mark Twain (Samuel Clemens) has received in England was the Pilgrims' luncheon in his honor. The guests numbered 150 persons, many of whose names are known on both sides of the Atlantic.

FREE GAS INSTALLATION

The Victoria Gas Co. has decided to install free of charge, the piping from the main to the meter in the house.

This expense has formerly been borne by the consumer and it is therefore to your interest to take advantage of this offer while it is open.

Intending users of gas should examine our large stock of stoves and heaters.

For full particulars call at the Company's Office, corner Fort and Langley Streets.

GUGGENHEIMS ABSORB KLONDIKE CONCESSIONS

Big Concern Takes Over Bread-
gold and Other Mining
Properties

Dawson, June 25.—Records in the gold commissioner's office show that the biggest placer merger the world has ever known has been consummated in Dawson whereby the Guggenheim interests have taken over properties from A. N. C. Treadgold, Northwest Hydraulic Company and Yukon Consolidated Gold Fields Companies and other smaller concerns. By the deal the Guggenheim people have absorbed all the placer properties in the Klondike watershed, which have been worked by old methods. Hundreds of claims, the Eldorado, Bonanza, Hunker, Bear and their rich hillside and tributaries are included in the deal. It is estimated the claims have cost the company ten millions and five millions which the Guggenheims have already have already been spent for equipment.

The company has just started three of the largest gold dredges in the world at the mouth of the Bonanza, and it is planning to start three on the lower Hunker one on Anderson Concession, one at the Arlington road house, at junction of the Hunker and the Klondike river, one at the lower Hunker or. It will also install a dredge of two more at the lower Bonanza this season, and several giant electrical conveyor machines for hoisting gravels and sweeping out creek bottoms with electrical power without the use of dredges.

The Guggenheim interests are understood to be making strenuous efforts to secure control of the Boyle concession, covering eight miles along the Klondike river; the Bronson and Bay concession covering a long stretch along Bonanza creek, and the Anderson concession covering a part of the Hunker. It is said to virtually control the Anderson concession now.

Several other heavy American and English concerns are in the field trying to buy before the Guggenheims get all the good dredging ground. The Pioneer Company of California have the greater part of Dominion Creek, which is twenty-seven miles long, under option. It will mean a deal of several millions, it is conceded here. The same company has already bought the Gold Basin Company's ground and the dredge on the lower Hunker, the Klondike river. The same concern also has options on a portion of the Indian river.

Extensive deals are being negotiated at Forty-Mile, Circle, Sixty-Mile and other districts, several New York experts representing a number of companies. Some Seattle capital is in on the ground.

North American Holds On.
Seattle, June 25.—The Guggenheim interests now extend to all parts of Alaska and Yukon. They control the Northwestern Steamship company, the Northwestern Fisheries company, the Northwestern Siberian company, the Northern Development company, the Seaward Peninsula Railroad, the Seward Lightage Company at Nome, the contract for the Session coal from the Wellington mine to be sent to Alaska, the Copper River and Northwestern Railroad, building from Valdez, beside their interest in the White Pass road, their claims in the Copper river, and the claims just secured in the Klondike watershed.

The Guggenheims negotiated for the purchase of the Boyle and Anderson interest last year, but were unable to get control. These interests are owned by the Yukon Dredging company, of which the Rothschilds, of Detroit, Mich., are the main stockholders.

The properties acquired by the Guggenheims in the Eldorado and Bonanza districts known as the Klondike watershed, cover about 50 square miles. The properties here include mines on the Klondike and Indian rivers.

The North American Trading and Transportation company still holds the mining properties acquired by it in the Klondike district, and does not intend to dispose of them. W. H. Isom, president of the company, said last night:

"Our company has retained all the property it has acquired in the Klondike mining fields, and we do not intend to sell it to anybody. The Guggenheim interests made offers to the company last year for the purchase of our mining interests in the north, but the company refused to sell and will refuse in the future."

"They will work our ground for us and receive a certain per cent of the gold taken out, for the work they do. It was thought advisable by the company to have them do it as they intend to install the mining machinery for this work, and it would not be practical for two large companies to put immense mining plants in the country where one could do the work. Our company owns twenty-one claims on the Bonanza and Eldorado creeks, alone, not mentioning the numerous claims on the other creeks."

WEDDING ANNOUNCEMENT

A quiet wedding took place at the residence of Mr. James Mallett of the local customs office yesterday, when his son A. J. Mallett, plumber, of Vancouver was united in marriage to Miss Eva Spencer Anne Cornish, of Vancouver, the ceremony being performed by Rev. Leslie Clay, in the presence of only immediate relatives. Mr. and Mrs. Mallett left on the Sound boat to spend their honeymoon in Seattle and other American cities. They will take up their residence in Vancouver.

BEGGING PAYS WELL.

More Than \$500,000 Given Annually to Beggars in London Streets.

London, June 25.—Beggings has long been illegal in London, and offenders are liable to various terms of imprisonment. Nevertheless, thousands in London evade the law and live in comfortable idleness on the weak workers. The annual report of the London Mendicant society just issued, states that it probably is no exaggeration to say that more than \$500,000 is annually given to beggars in the streets of London, and that probably the average beggar earns more than the average workman. The society, which exists to investigate the begging business, to help deserving cases and to assist in punishing incorrigible possessors of 79,820 records of street beggars.

WILL LEAVE ON SATURDAY

Victoria Oarsmen to Compete at Lake Washington Will Finish Training There

The James Bay athletic association oarsmen who will take part in the annual regatta of the Northern Pacific Amateur association of oarsmen will likely leave for Seattle on Saturday. They are all in first class condition and should do well. The crews have been sleeping at the clubhouse for three weeks past and rowing night and morning.

Ralph Smith Speaks

Ralph Smith, M. P. for Nanaimo was in the city yesterday and last evening attended a session of the Liberal Executives, of Saanich and Esquimalt which he represents. He dealt at some length with the recent parliamentary session and the necessity for organization. At the conclusion of the session the party about twenty-two in all adjourned to the Poodle Dog restaurant, where supper was served and the balance of the evening was passed in speeches and songs.

Bioscope Pictures

The bioscope pictures at the Gorge this week are all that the advance notices claim for them. The series are better than have ever before been shown at the Gorge, the films being brand new. The management of the bioscope company are endeavoring to follow this out in all subsequent entertainments and each week will see a change of bill and a new and original programme. The films shown this week are "The Substitute Drug Clerk," "Mrs. Brown's Mishap," "Love versus Title," and a lengthy programme of others. The crowd last evening was a large one and the warm weather is attracting still greater numbers of Victoria's citizens to the popular resort on the Arm. They were frequent in their applause during the showing of the pictures last evening.

GOVERNMENT WILL

TAKE FIRM STAND

Local Administration Will Protect Interests of the Sportsmen

GOWICHAN BAY NOT ONLY PLACE

Commercial Fishing Will Not Be Allowed at Campbell or Englishman's River

A Victorian who visited Gowichan a few days ago says that the people up there feel just as strongly as ever that the action of the Dominion government in granting a lease to fish in Gowichan bay is a gross outrage. If the terms of the lease are carried out it is sure that Mr. Ralph Smith will have to seek another constituency or suffer ignominious defeat at the next election. Why, said he, "if he were to offer for election now he would get scarcely a vote from this district. Even if electors have short memories there would be perennial reminder for them there."

In an interview with a Colonist representative Hon. E. J. Fulton stated that the provincial government were determined to prevent net fishing in the small rivers of Vancouver island. The Dominion government were continually encroaching on provincial rights on every hand. Especially was this true in regard to the fisheries, even if the Dominion had the power to regulate the fisheries it was certain that it had no right to give a monopoly to any person or company. A minute of council had already been passed by the local government prohibiting seining in the estuary of the Cowichan and this would be followed by a similar prohibition in the estuaries of the Campbell and Englishman's rivers.

Last year a license had been granted to Japanese to fish in Campbell river and considerable fish were caught. When the local government protested a letter was received from Hon. William Templeman saying that they knew nothing of the matter. Campbell river is known throughout this continent and in England as a place where the biggest salmon are caught, and it would be a thousand pities to spoil it. The government were determined to stand firm in the matter and to prosecute anyone attempting to catch fish there as a commercial enterprise. The Capital City Cannery company and the Dominion government had already been notified of this effect.

"Before the commission," said the attorney general, "Rev. Mr. Taylor, the Dominion government's own official, gave evidence showing the harm that would accrue from commercial fishing in the island rivers, yet now the favorites of the government have used their influence to get this concession in the face of both expert and popular opinion. It would not take many years to clean out these little rivers were this permitted."

Conference at Oyster Bay

Oyster Bay, June 25.—Secretary Tait spent four hours with President Roosevelt today and said as he left Oyster Bay to attend the Yale commencement that a number of important matters relating to Cuba and the Philippines had been concluded. The public announcement relative to this transaction, he said would come when the appropriations were issued on his return to Washington.

Insurance Directors

Albany, N. Y., June 25.—The assembly today passed the bill amending the insurance law with reference to election of directors in domestic mutual life insurance companies. The assembly concurred in the amendments made by the senate which would limit to business hours the restrictions upon electioneering and by agent and employees. As now passed by both houses the bill would permit agents and employees to participate in elections.

Telegraphers' Grievances

New York, June 25.—The executive committee of the Commercial Telegraphers' Union today offered to submit their grievances to the Postal Telegraph company. Complaint was also made that the company had not fulfilled the agreements with its men in Chicago.

FIFTH REGIMENT IS THROUGH WITH CAMP

Annual Drill Was Concluded Last Evening With Firing Competition

To the comforting strains of "Home Sweet Home," the footweary members of the Fifth regiment marched into the drill hall last evening after their dusty tramp from the scene of the annual regimental camp at Macaulay's Point. Camp was broken late in the evening and headed by the brass and bugle bands of the corps the regiment returned to the city after a fifteen day sojourn under canvas. The distance, over three and a half miles, was traversed in about forty-five minutes, though the roads were heavy with dust and the walking anything but pleasant. The regiment made a brave show as it stepped briskly down Government street between sidewalks lined with interested spectators, while the band played a stirring march.

The annual camp proved a big success and officers and men expressed themselves as immensely pleased with the way things were conducted and the results achieved. The annual firing competition which was concluded last evening produced excellent scores and the members of the regiment will likely have cause for gratification when the results are announced.

No. 2 and 3 companies performed with the big six inch gun last evening firing at a movable target out to sea. The full charges of cordite were used and in the city the firing was distinctly heard. No. 3 company shot first and did fairly well though the gunners seemed to have trouble getting the rounds. No. 2 company shot next and despite the gathering darkness the gunners did some fine work. They appeared to get the range better than the other company and hits were much more frequent especially towards the close, the dusk coming to assist the gun crews in getting a bead on the targets. The shooting of both companies, however, was of a high order and the score sheets will show them with some big scores. No. 1 company did its firing on Monday evening at a stationary target with the 15 pounder, but the shooting was rather disappointing and the scores will not approach those of last year. The scorecards were taken in charge by Lieut. Col. Holmes, D. O. C. and will be announced shortly.

After the firing had been concluded the men were detailed to strike camp. The tents were taken down and the baggage was packed up in preparation for removal to town. A fatigue party was left in charge to clear up this morning and to superintend the cartage of the belongings of the regiment back to the armouries. Then the march back to the city commenced about 10 o'clock, the regiment arriving before 11. In the drill hall the regiment was put through a few maneuvers by Col. Hall and then formed into column when the roll call was made after which the men were dismissed.

Superstitions on Skin Diseases.

Of all superstitions probably the most foolish is the idea that when a rash or sore is healed and cured by means of external applications it will "strike in" and do further harm. No reputable physician will give any countenance to such a notion. Skin diseases, however, are peculiarly apt to recur, and are, especially eczema, salt rheum, scald head, etc., are promptly relieved and certainly cured by Dr. Chase's Ointment.

MISS JUSTINE GILBERT IS GIVEN A FAREWELL

Bright Young Victorian Leaves Soon for Germany to Pursue Studies

A complimentary farewell reception was given last evening in the Inlet hall by some of the advanced pupils of Professor Wickens in honor of the approaching departure of Miss Justine Gilbert who will shortly leave this city to study in the conservatories of Germany. They were assisted by Mrs. D. E. Campbell, J. H. Griffiths and a little children's orchestra. The hall was crowded and the efforts of the performers were greeted with frequent hearty applause.

The opening number was a piano quartette, (string doubled) solo piano Miss Georgina Robbington, Violas, Prof. E. G. Wickens, Mr. Gustave Mittalstade; 1st violins, Miss Ruby Sylvester, Miss Justine Gilbert; Cellos, Miss Nancy Harrison, Mr. Gordon Edwards. The number was somewhat unsettled, but on the whole very well done. Miss Robbington was presented with a bouquet.

Miss Justine Gilbert was heard in the second selection a scintillating little gem of Bohemian. She was forced to respond three times to the applause. Miss Gilbert later was heard in an adaptation of some Russian airs arranged by Kniesel.

Mrs. D. E. Campbell was greatly applauded and at the conclusion of her song, was presented with two bouquets.

A trio composed of piano, Miss A. Mittalstade, viola, Mr. G. Mittalstade, cello Mr. G. Edwards were heard to good advantage in Op. 76 of Volkmann, a Schummerlied.

The march "Schober" of Handel was rendered by the children's orchestra who were compelled to respond with an encore when they rendered "Beautiful Chimes." Their playing was the feature of the concert. Twelve in all took part, the strings being doubled with the exception of the violins. They were compelled to respond three times.

Mr. Victor Levy rendered a violin solo, "Scenes de Ballet" de Liszt with a great deal of verve and swing. Miss Inez Gordon accompanying him.

Miss Nancy Harrison rendered, "Rhapsodie No. 2" of Liszt in an excellent manner. The young lady attempted this difficult number without her copy before her and in one or two places her memory failed her, but the rendering of the selection was very creditable.

Mr. J. H. Griffiths rendered "Voices of the Woods" by Michael Watson in excellent style with string obligato by Prof. Wickens.

The concluding number was a string quartette (doubled) the subject being Haydn's Austrian hymn.

At the conclusion of the programme Miss Justine Gilbert was called before the curtain and presented with two beautiful bouquets while Prof.

Economical

There are two prime factors to be considered in ordering flour:
1st—QUALITY.
2nd—ECONOMY.

The best is always the cheapest, unless there is a marked price difference. It is possible to buy cheaper bread flour than

Moffet's "Best"

It is impossible to buy better and poor economy to buy any other bread flour. "Best" is uniform granular Hungarian and will not only produce good bread, but more of it to the sack than any other flour on the market. Try it and you will always buy it.

The Columbia Flouring Mills Co., Ltd.

ENDERBY, BRITISH COLUMBIA

Wickens bade her goodbye and God-speed. Many of these present came forward and congratulated Prof. Wickens upon the admirable showing of his pupils.

MADE SUCCESSFUL FLIGHT

New York, June 25.—A big cigar-shaped airship sailed across and circled around above the high office buildings in Brooklyn and then swept across East river and alighted gently in the midst of a crowd numbering thousands, which had gathered in Battery park. A few moments later the

operator set the machinery in motion again and the ship rose to an altitude of about 500 feet and started northward over the sky-scrapers of Manhattan Island.

The ship was in charge of Lincoln Beachly, who seemed to have perfect control of the big machine.

After passing over Manhattan Island Mr. Beachly sent his airship out over East river toward Long Island sound. In some manner it collided with a spindle which marks a ledge at the sunken meadows, the airship being badly damaged and the aeronaut was thrown into the water. He was rescued by a boatman.

Welcome to Our Store

Today a new jewelry store opens its doors and welcomes its friends. Though our show rooms are not quite finished, owing to the great rush in the local factories, yet we are in a position to do business and will take a pleasure in having you come in as a buyer or sightseer. The future possesses large opportunities for us and increased advantages to you—the public—whom we will strive to accommodate and please.

WHEN 6 REMEDIES FAILED

Bileans Cured Him!

Mr. Geo. La Portwin, of 36 St. Paul Street, Toronto, tried six different remedies for dyspepsia, headache, and heartburn before he tried Bileans, which cured him! "I had heartburn, dyspepsia, and wind after food, and the pain I suffered was very acute. I tried six different remedies before Bileans, but they did me no good. With Bileans it was quite different. They relieved the flatulence and the pain within a few hours, and a short course resulted in a complete cure."

Purely herbal and containing no alcohol, Bileans are an ideal family medicine. Cure biliousness, indigestion, general debility, headache, constipation, piles, and all female ailments. All stores and druggists at 50c a box, or from Bilean Co., Toronto, for price. 6 boxes sent for \$2.50.

Dominion Subsidies.

Ottawa, June 25.—Total steamship subsidies for the 9 months ending March 31 last, were \$1,128,876, compared with \$1,227,560 for the previous 12 months. The different services to Great Britain cost \$460,666 and the services to France, China, Japan, Australia, South Africa, Mexico, New Zealand, West Indies, South America, San Francisco and Alaska cost \$517,905. The mail contract to Britain cost \$373,916 for the 9 months as compared with \$282,390 for the 12 months previous. The amount of bounty paid out in iron and steel for the 9 months was \$1,299,801, petroleum, 268,533, binder twine, \$80,595 and lead \$19,941.

WARM TALK AT

THE CONFERENCE

British Blue Book on Preference Debate Reveals It

The report of the proceedings at the Imperial conference has been issued in the form of a Blue-book of 622 pages, under the title of "Minutes of Proceedings at the Colonial Conference." It contains full reports of most of the speeches. The general effect of the minutes is to show that the attitude of British ministers towards the Premier's scheme of preference was, as reported, a negative and unsympathetic one.

The episode of Sir Robert Bond's appeal on behalf of Newfoundland, with which the main proceedings of the conference closed, is not fully reported. Sir Robert Bond's speech is given, and in it he uses the phrase, "Humiliating circumstances," of the manner in which the modus vivendi of 1906 was enforced upon the colony. This modus vivendi was concluded between the British government and the United States without consulting Newfoundland. The report of the speech is followed by a note to this effect: "After a short adjournment, the conference, after discussion in private, agreed that Sir R. Bond's statement should be recorded." Lord Elgin's answer to the statement is not printed.

Some Plain Speaking

There was some plain speaking, the Blue-book shows, by Mr. Deakin in the discussion on the New Hebrides, when he complained that Australia's anxiety to help the settlers was not mentioned by Mr. Churchill in a reply in parliament to a question directed against the Commonwealth tariff.

Mr. Churchill said that the authority for his statement was the high commissioner in the New Hebrides. Mr. Deakin said that his government immediately challenged the "unintentional misrepresentation of a gentleman recently appointed." Mr. Churchill gave the effect of the report in question, and said that if he had known what Australia was doing he would have stated it.

Mr. Deakin: Of course you would, but the statement which was made was wrong, and that which you are now repeating is wrong again.

Mr. Deakin later spoke of "ridiculous insinuations of those behind the political responsible heads who committed these oversights," and of "such slanders" telling against Australia.

Mr. Winston Churchill: I should be very sorry if the answer I gave in any way appeared detrimental to the interests of the dominion affected and was at the particular time contrary to the fact.

Mr. Deakin: It has been detrimental; these answers are also cabled out, and our people cannot understand how it happens. It has had a very bad effect here because it is one of a strain of the same sort of misrepresentation.

I take it that what we are entitled to expect on these matters is that somebody in a great office like this should be kept sufficiently well informed of our ordinary public matters so as to be able to put accurate answers into the hands of ministers.

In the official proceedings of the conference issued on the night of the above debate the subject was not even mentioned.

Preference Debate

It is impossible to print the full report of the preference debate, which was merely a series of speeches at the prearranged time, and a constant interchange of argument and answer between the home and the colonial ministers. The following are extracts: Mr. Asquith: I am not sufficiently conversant with your (Australian) politics to say whether you will be able to pass any tariff which does not contain this condition about ships being manned by white labor.

Sir William Lyne: It does not affect it very much.

Mr. Asquith: It affects us enormously. It is a thing which to us is absolutely inadmissible, and I say this in the plainest terms. There is nothing that we can give you that we do not give you.

Sir William Lyne: You can give us our wine.

Mr. Asquith: . . . We do not tax your wine more than other people. We give you, I say, everything that is possible for us to give, and under no system of preference could we give you more.

Sir William Lyne: I am very sorry to hear it.

Mr. Asquith: . . . What you are asking when you come here and talk about preference, and suggest that we should give you preference, is not that we should give you more than at present—we cannot; we give you everything—but that we should take away from others.

Sir William Lyne: If I had a boy, I should look after him before I looked after a foreign boy.

Mr. Asquith: . . . The abandonment of free trade; that is the bargain. Dr. Jameson: Is not that coming back rather to the fetish of free trade?

Mr. Asquith: . . . You can call it a fetish if you like; you can call it anything a fetish, but with us it is a conviction.

Mr. Deakin: English protection sixty years ago was a fetish and nothing else.

Mr. Asquith: . . . It may be in time you will persuade the people of Great Britain that free trade is a fetish.

Mr. Deakin: We think it is so now. Mr. Asquith: Go and persuade the people of that, if you can persuade them, and we will have another colonial conference, and I say this with confidence. But you have tried to persuade the people. . . . I do not like these questions of terminology which are apt to generate heat, but never conduce to light. We may be an absolute set of lunatics, wandering in twilight and darkness, fiscal twilight—and the time may come when we shall have a rude awakening. We think, on the other hand, that free trade within the Empire will be recognized as an ideal which all the various communities of the Empire ought to aim at conducting.

"You think, I doubt, that our economic system belongs to the age of the dodo," was another of Mr. Asquith's remarks.

Mr. Deakin's first speech on preference occupies (with interruptions) thirty-four pages, and he spoke at length several times later. Mr. Lloyd-George's speech occupies thirty-eight pages, but it is not really a speech, but a series of answers to the innumerable questions and interruptions of the premiers.

WRECK OF SANTIAGO

Santiago, Chili, June 25.—It is officially announced by the Pacific Steam Navigation company that only one passenger was aboard the Santiago wrecked in a heavy squall five miles north of Corral and he was drowned. The only survivor was the fourth officer, while the rest of the crew numbering 90 persons and including twelve English officers, perished, so far as can be ascertained. Only one boat was launched, and it was dashed to pieces on the rocks after drifting for several days.

The Santiago left Corral with her engines out of order as a result of the storm, and instead of proceeding to Anoud she started to return much greater distance.

VINOL'S RELIABILITY

Strong Evidence of Merit

Prominent Physicians Join With Mr. D. E. Campbell in Recommending Vinol

Countless physicians and druggists are now prescribing and endorsing Vinol as the most valuable cod liver preparation known to medicine and it is fast superseding all other forms of cod liver oil.

A prominent physician writes: "I am satisfied that Vinol derives its wonderful life-giving and strength-creating power from the medicinal curative elements found in the cod liver. It is the best strength creator and vitalizer for old people, weak women, children, and the convalescent that I ever saw."

Another physician writes: "I could cite many cases where health has been restored in a surprisingly short time by Vinol. I should be very sorry to have to do without Vinol in my practice. It has no equal for hard colds, throat and bronchial troubles."

Now, when we tell you that we have never sold in our store a remedy of such remarkable curative and strength-creating power as Vinol, for the weak, the sick and the aged, and that if it fails to accomplish what we say it will we will refund your money without question, it will show you our faith in the preparation.

In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure.

Try Vinol on our guarantee, D. E. Campbell, Druggist.

House Work

Need Not Wear Her Out

The drudgery of house work seems never ending to tired-out, dispirited women who suffer from female complaints or irregularities. Inflammation and ulceration cause fearful bearing-down pains which are aggravated by much standing on the feet, and lifting necessary in house work.

But let no woman despair of relief from this torture. That famous tonic reconstructor of diseased or disordered female organism.

Lydia E. Pinkham's Vegetable Compound

has cured more than one million American women, and it will cure you. When troubled with painful irregularities, when backaches and headaches drive out all ambition, Lydia E. Pinkham's Vegetable Compound will bring back health, strength, and happiness.

It Made Me a Well Woman

Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has done more for me than doctors or medicines. I suffered for four months with suppression of monthly periods. Headaches were a daily occurrence. Pains in my back and limbs made it hard for me to attend to my domestic duties.

The medicines I had taken did not help me, and I was in misery and despair until one day I read an account of your Vegetable Compound, and decided to try it, and I thank God that I did so, for it not only regulated my monthly periods, but made me a well woman.

MADAME CAROLINE MARTINEAU, 22 La Chapelle St., Quebec, Que.

Do not let disease make headway. Write at once to Mrs. Pinkham, Lynn, Mass. Her advice is free and will contain information of great value to you. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction and since her decease, she has been advising sick women free of charge.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

THE OPEN DOOR

The London Times says that Mr. McBride has kept the door open for British Columbia, so that the claims of the province upon the Dominion can be hereafter pressed. The London paper can not have known the attitude taken by the Victoria Times in this regard. It had, doubtless it would have hesitated about incurring our contemporary's wrath. It must be an awful responsibility to be the only thing in the world that is or can be right. Some times we feel that the public do not appreciate the Atlas-like burden, which our evening contemporary so strenuously upholds. How our modern Hamlet must sometimes ejaculate, as it contemplates the awful burden, which it has to bear:

"The time is out of joint; O cursed spite!
That I was ever born to set it right."

Just reflect for a moment upon the "pure cussedness" of humanity whose blunders vex the soul of our evening paper. Everything has gone wrong, from Sir Wilfrid Laurier and Mr. J. A. Macdonald on the West to Mr. Winston Churchill and Sir Henry Campbell-Bannerman on the East—from the Colonist in this outpost of Empire to the London Times in the very heart of it. But amid it all the Victoria Times stands out like some great rock of wisdom in a weary sea of error, in splendid isolation, possessed of "a mind not to be changed by place or time." We feel like paying this tribute to our contemporary before briefly reviewing what Mr. McBride has achieved.

Although in the session of 1905 both parties in the local legislature agreed upon a resolution asserting that the claims of the province upon the Dominion were exceptional, and arose out of conditions of a permanent character, this was not admitted by any one in authority outside of British Columbia, until Mr. McBride went to Ottawa upon the invitation of Sir Wilfrid Laurier to attend the meeting of the provincial premiers. It will be remembered that before he went to the federal capital he was subjected to bitter attacks from the Liberal press of this province, and accused of unworthy motives. Mr. McBride took an early opportunity of bringing to the notice of Sir Wilfrid Laurier and the provincial premiers the nature of the exceptional claims of the province. He succeeded in securing an admission from Sir Wilfrid that these claims were well founded. It is worthy of note that although Mr. Templeman was at that time in Ottawa, he does not appear to have done anything whatever to assist Mr. McBride in the presentation of his case. Strengthened by Sir Wilfrid's endorsement, Mr. McBride found little difficulty in obtaining the recognition of the provincial premiers of the correctness of the principle which he advocated, but when it came to the amount, which the representatives of the other provinces were willing that this province should receive, there was a wide difference of opinion between Mr. McBride and his colleagues in the convention, so much so indeed that he withdrew from the gathering. For withdrawing he was assailed, and not only by the Liberal press. He was charged with having rendered abortive the whole convention. He denied this, and events proved that he was right in his denial, for the Dominion government accepted as its policy those items of settlement upon which all the provincial premiers were agreed, as well as the item in regard to this province, to which Mr. McBride had objected. The government sought to have the recommendations of the convention made a final and unalterable adjustment of the whole question. It might be very properly claimed that the per capita and administrative allowance should be deemed a final and unalterable settlement, because all the provinces were willing that it should be so regarded, but it seemed unreasonable upon the face of things that this province should be bound down to accept as final an unalterable something against which it had protested, and which, upon all the facts, appeared to be inadequate. Under the leadership of the federal Premier the Canadian Parliament asked the Imperial Parliament to pass a statute making the temporary grant to this province, among other things, "final and unalterable." Against this the British Columbia government asked the legislature to protest. By a piece of singularly bad tactics the Liberals in the local legislature went on record against such a protest, but we are willing to concede that this was an error only. It then became the logical duty of Mr. McBride to go to London so that the province might be represented when the request of the Dominion Parliament came to be considered by the British Government.

His mission excited columns of opposition ridicule, but the London Times tells us the result of it, which, although it appeared in the news columns of the Colonist yesterday, we repeat:

"Without the explanation which Premier McBride was able to give to the Colonial Secretary as to the position of the province and its special demands and requirements, the Colonial office would naturally have given effect, verbatim et literatim, to the Dominion act. It is evident, however, from the terms of the act, as now introduced, and from the observations made by the Under-Secretary for the colonies, that the Premier has succeeded in eliminating the words 'Final and Unalterable' proposed to be inserted, and in keeping the door open for a continuation of negotiations with the Dominion government, for what he regards as fairer terms for his province. A clause in the act in question specifically reserves the right of any province to make further claims upon the Dominion which is obviously a recognition of British Columbia's right to continue to press its claims upon the Dominion."

Thus the door is open and British Columbia has a right to continue to press for better terms as a consequence of Mr. McBride's mission to London. He was able to secure not only the recognition of the merits of our claim by Sir Wilfrid Laurier and the provincial premiers, but by the Imperial Government and the British Parliament. In all this Mr. McBride has sacrificed nothing and has gained much. He has handled the case with consummate skill and won a pronounced victory for his native province.

A GROSS LIBEL

Mayor Morley, at Monday evening's meeting of the City Council, is reported to have said, during the debate on the Liquor License By-Law: "It's a crying shame that some of our best citizens and people of influence are responsible for the terrible condition of affairs here." In the interest of truth this must at once be stamped as a gross libel on the fair fame of Victoria, and an entirely false assertion in so far as it depicts the attitude of the leaders of public opinion towards the liquor traffic. The allegation is absolutely unwarranted. There may be some objectionable conditions here. It is well known, in fact, that there are. And we quite admit that the argument that because they are no worse, or perhaps not so bad, as what prevail in every other city of similar size in the world, does not remove the obligation resting upon the community to purge itself as far as may be possible of the elements complained of. But the situation is not such as to give the Chief Magistrate of the city warrant to advertise to the outside world that a "terrible condition of affairs" exists; and we would be derelict in our duty to this community were we to permit such a damaging statement to go unchallenged. Mayor Morley has made a great mistake, has allowed his zeal to run away with his disposition to be accurate and unbiased. He couples with his attack upon the reputation of the city an allegation to the effect that "some of our best citizens and people of influence are responsible." We believe this to be utterly untrue, and are simply amazed at a gentleman holding the high position of Mayor choosing occasion to thus malign the characters of his fellow-citizens. The genesis of this most reprehensible outburst of unwelcome and uncalled-for denunciation will no doubt on examination be found in the circumstance that the Mayor and certain members of the Aldermanic Board scent defeat of their plan to impose tyrannous regulations upon the owners of hotel and saloon property, and choose vilification as the only remaining weapon with which to endeavor to remain in an untenable position. Such prostitution of office to serve personal aims comes as a most profound and unwelcome surprise. We had expected that the Mayor and Aldermen would have chosen to listen with due attention to the case set forth by the interests most affected by the operation of the Liquor License By-Law. They ought to have received considerate treatment. The Colonist has already gone on record as being opposed to the suggestion of the City Council, that the By-Laws should become immediately effective. The validity of the measure has yet to be finally determined by the Courts, and to ask the owners of the property affected to make alterations in their premises costing many thousands of dollars, when there is a possibility that a decision may be given adverse to the City, is not only manifestly unfair, but a sorry exhibition of lack of ordinary business tact and foresight. However, that particular phase of the question has nothing at all to do with Mayor Morley's offence at Monday evening's meeting of the Council. He has chosen to attack the good name of the city over which he presides as Chief Magistrate, and to abuse the reputation of its leading citizens. There can be no condoning of this on the ground that the Mayor is of irascible temperament and given to conduct characterized by surprising idiosyncrasies. The reputation of the city has been imperilled, and there will be universal disposition to take whatever steps may be available to guard against a repetition of such an outburst and secure a retraction of the damaging statements.

OUR PERTURBED FRIENDS

Our great and good friend, Senator Riley, is understood to be much perturbed these fine summer days. Things are not going quite as well in the Liberal Party of Victoria as he could

wish, and as the Moses who led them out of the Egyptian darkness of defeat to a position where they could point with pride and several other emotions to the fact that they had "redeemed" Victoria, he feels as if there were things to be said and things to be done, if the head of the Party, to wit, Sir Wilfrid Laurier, is to remain convinced that he did a wise thing in elevating Mr. Riley to the placid and rejuvenating atmosphere of the Senate. He is not far astray. Senator Riley's claims to statesmanship may be surpassed by some, but he can size up a political situation with a very considerable degree of accuracy, and when he finds it necessary to talk to the faithful, there is pretty good reason for believing that the faithful need to be talked to.

If our great and good friend wants to know something that he and his political associates can do that will at least give their party some semblance of life, we venture to suggest that they should display at least as much interest in the future development of this city as the leader of their party did, when he sent out a Commission on Transportation to find out what we needed. In the course of human events there will be a Dominion election before many months, and one of the things that will be discussed at that time will be the apathy of our Liberal friends in respect to the recommendation of the Royal Commission on Transportation regard to rail connection with the Mainland, that is, if they do not display some activity in that matter in the meantime. We speak of this now because we do not want this subject brought into politics. The Colonist told the Liberals to shape their course differently in regard to better terms, or the first thing they knew that would be a political issue, and the Conservatives would gain an immense amount of prestige thereby. That is just the way it turned out, and even the loss of an election did not teach the Liberals wisdom but they had to keep on making an exhibition of themselves, until Mr. McBride received the approval of the highest authorities in the Empire. Now we give them fair warning. This matter of rail connection with the Mainland must receive the attention, which it deserves, otherwise it cannot be kept out of the next election, and it will sweep every Liberal candidate on Vancouver Island into political oblivion. We give this warning because we want the question kept absolutely out of politics, but if the project is not materially advanced in the meanwhile, we propose to have an expression of opinion from the people of Vancouver Island upon it. Some may say that it is not "good politics" from a Conservative point of view to state this, which may be true enough, but we want that connection a great deal more than we want to win a political victory in the next election. We want to see Victoria sent to the front in every possible way, and that connection is the thing that will do more for us than anything else. Therefore, we say to our great and good friend the Senator that if he can stir "the boys" up to action in regard thereto, he will confer a benefit upon the city which made it possible for him to enjoy a seat in the Senate for the rest of his natural life, by keeping a great undertaking, which will make Victoria the premier city of the West, absolutely and forever out of the political field.

A NEW DEPARTMENT

The Colonist has for some time now had its eyes fixed on the wonderful amount of interest shown on all hands in amateur photography and has been considering in what way it could best help those of its readers who are interested in the art. We have now arranged to devote a section of the Sunday issue to the subject.

The matter has been entrusted to Mr. Arthur V. Kenah, who will have the conduct of this section and who will write an article of interest each week, dealing therein with some selected subject and treating it in such a way that it will be both instructive and interesting. When necessary these articles will be illustrated, as we thoroughly appreciate the value of pictures in this class of work, and it is our intention to spare no pains to make a success of this department.

We have also arranged with Mr. Kenah to place his services at the disposal of any of our readers who may desire his assistance; and a special feature will be made of "answers to correspondents." All new photographic apparatus will also be carefully reviewed and brought to the notice of our readers, and manufacturers are invited to send the same to the office addressed to the Photographic Editor.

Mr. Kenah has had an intimate experience of over eighteen years in all branches of practical photography, and is a well-known writer thereon in the British and American papers, and in leaving the matter in his hands we do so with the utmost confidence that he will make this a particularly interesting and successful section of The Colonist.

It would seem eminently desirable that the civic authorities should arrange to co-operate heartily with the Provincial Inspectors in the effort to exterminate the fruit pests in a most important work of a public character, and anything suggestive of tying their hands is to be deprecated.

To the weary brain of the hard-working editor there comes occasionally some little event calculated to inspire spontaneously a cheerful admission that after all life is worth living. For instance, an article, referring to the gratifying change in conditions in British Columbia, appearing in yesterday's Colonist, closed thus: "This

McBride government brought about, and to that extent it is deserving of that measure of condemnation which is so ungrudgingly accorded it by the great bulk of the people of British Columbia." The word "condemnation" was what was written, but the types made it "condemnation."

The Colonist is heartily in sympathy with those who urge that adequate financial support should be forthcoming to ensure that a thoroughly representative fruit exhibit may be forwarded from this district to the Northwest fair. Competition of the most aggressive character on the part of the fruit-growers of Kootenay and Ontario must be calculated upon.

There should be a large attendance at the Canadian Club luncheon tomorrow, when W. P. Archibald, Dominion Parole Officer, speaks on the "Modern Treatment of the Criminal." The address should prove valuable and instructive, notwithstanding that its theme is quite out of the range of most questions engaging our attention at a time when the Last West is throbbing with industrial activity.

A simple way of determining whether there is a likelihood of the civic authorities arriving at any satisfactory solution of the water problem at an early date, is available to everybody. Take a brick—an ordinary, common red brick—and throw it a considerable distance up in the air. If the brick stays up, the problem will be solved.

His Imperial Highness Prince Pushimi has come and gone. With what ease and dignity did Victoria comport itself at the important task of receiving and entertaining so distinguished a guest! It may be said in all truthfulness that, as a community, we are pre-eminently well equipped to entertain royalty. The city possesses so many and varied natural charms; we are so fortunate in being the centre of the official life of the Province, which implies palatial homes where visitors may be received; and those whose duty it is to act on such occasions as hosts are so well fitted by previous experience, that the reception of the highest dignitaries may be undertaken in the most matter-of-fact manner, free of the embarrassments which might occur in many less favored cities. This feature is quite an asset in itself, tending as it does to elevate our standard of decorous comportment at public functions.

SPIRIT OF THE PRESS

Economy

The recent shifting of officials in the Yukon reminds us that there is still much to be learned from the territorial tangle of affairs which costs the country vast sums of money and gives in return no guarantee of effective administration. Now that the first days are over, the new force of thousands in the Yukon could be easily handled by a mounted police post with a minor branch attached, —Ottawa Journal.

The Death Penalty.

There is a tendency manifested to flout the death penalty and even to abolish it for all crimes, including murder in the first degree. Prominent during the last century, France has just abolished the death penalty, and Kansas has ratified by statute the action of the executive of that state for years in refusing to sign death warrants. Massachusetts is considering a measure, which appears to be a very sensible one, for it provides that a murder verdict of guilty in murder cases without capital punishment. Frequently there are exceptionally cruel murders where it seems as though nothing but the death penalty will satisfy the ends of justice, and it is well to leave the infliction of the death penalty in such cases to the jury. —Rossland Miner.

Sawdust and Fish Life.

It is a very common belief that sawdust is very destructive of fish life, and that both salt and fresh water fisheries in the Maritime Provinces have been depleted as a consequence of the careless manner in which sawdust and other mill refuse is allowed to escape into the streams. Professor Knight of Queen's University during the last year or four years has been conducting a series of investigations on particular streams in both New Brunswick and Nova Scotia to ascertain (1) the amount of sawdust discharged into the stream and (2) the volume of water into which it was discharged, and (3) what strength of the resulting solution would prove destructive to fish life. He finds that, as a result of his investigations and experiments, he has no hesitation in saying that in no stream he has studied in New Brunswick, Nova Scotia or Ontario, has he found sufficient pollution to destroy half grown or full grown fish, and while the varying strength of sawdust solutions that will kill different kinds of eggs have not yet been determined, experiments made with perch eggs show they will hatch out in a sawdust solution of 33 strength. In the St. John river at its mouth, the water is so strong that it is dead. The real cause of destruction to fish life, according to Professor Knight, is mill dams without proper fish ways, which prevent the fish from getting up to their natural spawning grounds. —St. John Sun.

What Would Be Said?

Saturday Night, of Toronto, asks a pertinent question when it expresses a desire to know what would be said by the people of Ontario, if the president of the Provincial university, the governor of the Toronto jail and the editor of the Toronto Globe were all Roman Catholic priests?

It would be interesting to know what would be said—but it is not difficult to make a fairly accurate guess. Yet the newly appointed president of the university is a Protestant minister, the newly appointed governor of the jail is a Protestant minister and the editor of the Toronto Globe is a Protestant minister.

Of course, the editorial chair of the Globe is not a public position—and it should, therefore, be dropped from the discussion that these appointments are public positions, and Saturday Night's expression of curiosity is pertinent.

Why should it be necessary to select a minister of any denomination to fill the position of president of a provincial and non-sectarian university? Is such a selection supposed to give no offense to the natural prejudices of other denominations? Only a person ignorant of the human mind or heart could so suppose.

The appointment of the new university president must be objectionable to Catholics, and therefore justifies any criticism that it has so far provoked.

The appointment of a minister as governor of Toronto's jail is even more surprising. What qualifications for the position can the gentleman who has been appointed possess—and why should preachers be singled out for such semi-political positions?

Both these appointments look either very inconsiderate or too astutely considerate. They both fail to impress as examples of good taste. As Saturday Night suggests: "How would Protestants like it if the host were on the other foot?" —Winnipeg Tribune.

WEILER BROS.

FOR THE SHOW OF ROSES

ON Friday, the 28th, the Show of Roses will be the attraction. If you are interested to the extent of being an exhibitor you will most certainly require some flower holders. It would be folly for you to place your best roses in a pickle jar or a medicine bottle or some other discarded article of this sort. The roses deserve something better—something in keeping with their own beauty.

For a mere trifle you can purchase here some really attractive flower holders and you will get the "trifle" back again in the extra prizes you will win through having them attractively arranged. And then you don't have to be an exhibitor to be interested in these Vases. Anyone who loves flowers and delights in seeing them fittingly displayed should see these and other holders displayed in our showrooms.

British Hand-Made Glass

We have a showing of Webb's Famous Hand-Made Glass of which we are justly proud. Clear, sparkling glass, artistic and attractive shapes, these Vases and Rose Bowls, at the prices quoted here, are better value than is offered anywhere else in the city in flower holders.

VASES	VASES	BOWLS	BOWLS
4½ in. high, each 20c. or 3 for 50c.	6 in high each 25c. or 6 for \$1.25	3½ in. high, each 20c. or. 3 for 50c.	4½ in. high, each 25c. or 6 for \$1.25

Interesting Dinner Ware News

Here are a half dozen lines of low priced DINNER SERVICES we are sure will interest you. The patterns, the shapes, the quality and the prices are correct in each instance and if you are in need of something in the dinner line here is an opportunity to get a dainty set for a very small outlay.

Comparing quality and price it is surprising to many how these superior sets can be offered at such low prices. The secret is in the large purchases we make. We buy direct from the largest makers for cash and are enabled to offer you the best possible values in the Dinner Ware line.

We have many other equally good values and we want you to come in and ask one of our salesmen to show you many other styles.

DINNER SET—Semi-porcelain, 97 pieces printed patterns, in moss green, peacock green and Canton. A very nice set and good value at **\$8.00**

DINNER SET—Semi-porcelain, 97 pieces Green Kimberley pattern. This is a very neat and attractive pattern and has found much favor with many. It is a "stock" pattern with us and you can at any time get any piece you may want. Price **\$10**

DINNER SET—Pure white, china, 105 pieces. This is a very neat pattern and is exceptionally good value at.... **\$15.00**

DINNER SET—Carlsbad china, 100 pieces. Beautiful wreath of natural color flowers, gold on handles. Price **\$15.00**

DINNER SET—Semi-porcelain, 93 pieces White and gold pattern. This combination of white and gold makes this a very pleasing and genuine good value at the price of **\$18.00**

DINNER SET—Ahrenfeldt's Limoge china, 100 pieces. Narrow wreath of flowers, also clusters of pink and yellow roses with green leaves, gold on handles, each **\$25.00**

Low Priced Decorative China Bits

Things that look well in the china closet, on the buffet table or sideboard and yet not too fragile for use when occasion demands it. Of these we have a wondrous array in exceedingly smart designs and splendid decorations. That they originated in an artistic atmosphere is apparent in the discriminating taste shown in colors and ornamental detail

Chocolate Pots, Cracker Jars, Tea Pots, Sugar and Creams, Tankards, etc.

You must drop in and see them.

Out-of-Town Visitors Welcome

To the visitor in our town, here for a day or two only, or for the entire summer, we would say: "Come in!"

We are glad to have you inspect the splendid things on display in this establishment. If you perchance see anything you would like to carry home as a memento of your visit, we shall be delighted to sell it to you. But, don't imagine you are expected to buy. We think this is a pretty nice town, and ours a right nice shop, and we're not ashamed to have you look it over."

Our own public never tires of doing so.

Send the Bride Something in China

There is nothing you can buy for a modest sum, that carries with it the power of attraction and the evidence of good taste—as does a bit of china—or glass. So many small priced things are artistic.

Try to think of anything else for, say, a couple of dollars, that is suitable for a wedding present, and you must confess they are either insignificant or coarse. Make it even five dollars—almost the same result.

Come in and see what our new Spring importations disclose — you'll say they're marvelous. We think they're great, ourselves.

POTLACH FURNISHES STARTLING SENSATION

Alleged That Girl Was Sold To Highest Bidder At Alert Bay Festival

INDIANS ARE HOLDING CELEBRATION

Sale of "Coppers" Chief Feature of Present Week's Feast—Four Thousand Dollars for One

Vancouver, June 25.—The greatest potlatch ever held in British Columbia is now in full swing at Alert Bay. Fully two thousand Indians, mostly of the Tsimpsians, are taking part, and the value of the goods that have been aggregated, say those who have seen the stacks of twenty-dollar gold pieces and bills of all denominations and piles of blankets and household goods, nearly \$50,000. Indian girls of tender age have also been bartered to the wealthy chiefs of the neighboring districts.

The potlatch commenced over a week ago, and will continue until next Saturday. There are many white people at Alert Bay at the present time, and the Indians have welcomed them to their dances, but few of them have been allowed to see the inner workings of the great gathering. The shore of the inlet is one mass of canoes belonging to the visiting Indians, a reasonable estimate placing the number at more than 500. Many of the dug-outs contain twenty paddles, and are to be bartered away with the rest of the goods, the owners trusting to good luck and the good humor of their companions to get back to their homes when the potlatch is ended.

The dances are the largest that have ever been seen on the coast, about five hundred Indians taking part at each performance. The men are all dressed in the finest of native clothes, and the riot of color is a scene that those who have witnessed will never forget.

Went to Highest Bidder

On Tuesday and Friday of last week there was a little celebration that no white people, not even the provincial constable, was allowed to witness. The story leaked out afterward. Two dusky maidens of the "Tsimpsians" were sold to the highest bidders among the Indians. Prices were high, and only the most wealthy of the natives could bid.

One little girl of nine, who had been brought from Rivers Inlet, tall, handsome, and attractive even to the eyes of the white men, had been seen here, was sold after spirited bidding for \$1400. The two contestants for the little maiden were an old, grizzled Indian of fifty and a young man who was said to have come all the way from the Queen Charlottes to purchase a wife. There was a touch of romance in the fight of May and December for the handsome little girl, who seemed to fully realize her position. The old man had the longer purse and she was handed over to him. The potlatch treasury was enriched to the amount of her value. He took her down to where his family was encamped, and her reception by them was so harsh that tears came to her eyes. Another girl about eighteen was sold to a young son of a chief. Her color showed that she had a little white blood in her veins. She seemed quite happy with her purchaser, and the sale was evidently prearranged for there was not one bid against the \$1000 offered by the young Siwash.

Old Jack, a patriarchal Indian well known to all the white people up the coast, was so impressed with the reasonable prices that he made tracks for his canoe and started for some secret reserve funds that he had cached, promising to return before the end of the potlatch with sufficient funds to buy himself a young wife. One girl, who was probably about twelve years of age, was held in reserve until this morning.

Important Sale of Brasses

Although a great amount of the wealth of the potlatch is in coin or bills, there are high stacks of blankets, canoes and even virgin gold in the treasury pile stacked up on the beach and jealously guarded by chosen Indians. There is a huge stack of peculiar shaped wooden gongs, studded with copper and brass, which the Indians use for exchange among themselves.

A WOMAN'S BACK WAS NOT MADE TO ACHE

Thousands of Women suffer Untold Misery Every Day with Aching Backs That Really have no Business to Ache.

Under ordinary conditions it ought to be strong and ready to bear the burdens of life. It is hard to do housework with an aching back. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney trouble.

Doan's Kidney Pills

will cure you in the same way as they have cured thousands of others.

Mrs. Thos. Craig, Almonte, Ont., writes: "I was doctoring for six months for kidney trouble and my back was so lame I had to lie in bed. I was advised to try Doan's Kidney Pills. I did so and in one week I was able to walk with very little pain, and in five months my back was as strong as ever."

Doan's Kidney Pills are 50 cents per box or \$1.25 at all dealers, or will be mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

They are worth about twenty-five cents each, and the pile is nearly 20 feet in height.

An interesting feature of the potlatch has been the sale of what is known amongst the Indians as a "copper." That is composed of thin metal, and is made in the form of a shield or breastplate on which are engraved hieroglyphics. The intrinsic value of the "copper" is perhaps five dollars, but by association and age the pieces have become exceedingly valuable, and thousands of dollars are paid for them. For instance, this year Chief Tom Harris, of the Kingcombe Inlet tribe has planned to give \$1000 in cash for an exceedingly old "copper." It is very highly prized by the Indians, and is expected that there will be keen rivalry when it is put up for auction. The man who gets it will be the most highly honored in the North in the coming year and for the succeeding seasons until he is compelled to sell.

BEAR CAME TO SCHOOL

Trail Children Were Frightened by Bruin and Organized Hunt

Trail, B. C., June 24.—For a couple of weeks past a couple of bears have made life miserable for the teachers and scholars of the Trail public school. The bears were attracted to the vicinity of the school by the scraps of lunches thrown away by the children. Every day or two one or the other of the bruins would be seen by the scholars or some one else, and it was feared that some of the smaller children would be carried off by the animals. On Wednesday afternoon Mr. George Ross was out with his gun hoping the marauding animals would put in at appearance, and sure enough one did. As soon as the animal saw a man with a gun in his hands, it turned and ran up the side of Lookout Mountain as fast as its legs would allow it. Mr. Ross took a seventy-five yard shot at the retreating animal and the bullet struck him in the back and went through his body, killing him almost instantly. The bear weighed about a hundred and eighty pounds. There is said to be a large number of bears around Violin Lake, which lies a short distance from Trail.

HALF-BREED SHOT COMPANION

Is Alleged to Have Told Story of Crime to Friend.

Greenwood, B. C., June 24.—Johnny McLain, halfbreed Indian, and ex-convict, is again in jail. His boon companion, Billy Cameron, a white man, lies dead under a mass of rocks and brush on the shore of a small lake eight miles east of Okanagan, on the Indian reservation, with a bullet hole through his body. This, in brief, is the story of another tragedy in the wilds of the Colville reservation, the details of which may never be made known to the world.

Thursday morning Billy Ambrose, an Indian, came to town and reported that McLain visited his home the night before and said he had shot Cameron, and asked Ambrose to get the body. Ambrose was afraid to leave home, as he thought McLain wanted to steal his horses or injure his family, so kept guard over them until McLain left.

Fourteen Furnaces Working

Phoenix, B. C., June 24.—Last week two more blast furnaces were placed in commission at Boundary smelting plants—one each at Grand Forks and Greenwood, with another soon to be placed in blast at Boundary Falls. There are now twelve blast furnaces at work reducing the ores of the Boundary district mines, the maximum of the three reduction plants being fourteen blast furnaces. Last week the district output ran about 3000 tons of ore daily, and from now on it should be over 5,000 tons per day.

Hume Hotel Changes Hands.

Nelson, June 24.—J. Fred Hume on Saturday disposed of the Hume Hotel as a going concern to George P. Wells, secretary of the Mountain Lumber Manufacturers' Association and son of Mr. J. C. Wells. Possession will be taken on Dominion Day. Belleville-Tompkins, late of the Strathcona, will be the new manager. The consideration was about \$50,000.

Mr. Hume retires from business, and will shortly undertake a trip around the world.

CANADA'S HIDDEN BONAZA

Graphic Story is Told of the Hudson Bay Country

For the past four months, J. A. Osborne, proprietor of the Fort Francis Times, has been exploiting the north country around Hudson's Bay on some mysterious errand. He has taken the guides with him made some 1800 miles by canoe north of the Height of Land. Between Winnipeg and Moose Factory they ran 42 rapids and made 17 portages. They got a boat from the Hudson's Bay company's Laborer and sailed across the great coast of Hudson's Bay to the White Bay, the only Hudson's Bay post on the east side of the bay, the factor being the only white man. From there they journeyed 300 miles north and found the remains of the Lady Land, which had been on the Gaskett shoals some three years ago. The pieces of the vessel they picked up were the only remains which have ever been found.

The Eskimo, Mr. Osborne states, are rapidly dying off and many of them are following the track of the reindeer Labrador, where migration to the late Leonidas Hubbard went up to see. Regarding the navigability of the Hudson's Bay, to which several railways are now being built from points in western Canada, Mr. Osborne stated that while away he met Captain Ford of the Hudson's Bay company's steamer Discovery, who has sailed the great inland sea for the past 18 years, and he is of the opinion that there is absolutely no danger in navigating the bay for at least five months of the year. He is also of the opinion that when the Hudson's Bay route is opened it will carry practically all the traffic from western Canada to Europe and will prove a far cheaper means of transportation, especially on furra products.

The country itself is exceptionally wealthy in all kinds of minerals, and when opened up will prove to be the most valuable portion of the Dominion. The bay itself is teeming with whitefish, cod, salmon and speckled trout. The southern and eastern

portions of the coastline are covered with heavy timber, which will be very valuable with the proper transportation facilities. All along the southern shores of the bay is a veritable sportsman's paradise, wild fowl of all descriptions covering the sloughs and lakes by thousands. After thoroughly looking into the possibilities of this far northern country, Mr. Osborne is of the opinion it is one of the richest countries on earth, and within a very few years will be the bonanza of Canada.

SENTENCED TO 18 MONTHS

Francis Beri Pleads Guilty to Forgery at Vancouver

Vancouver, June 24.—"My wife said that I was to go to Honolulu or New York, or somewhere, and I just had to get the money to go."

The above was the unique excuse made in the police court this morning by Francis Beri, when asked why he had raised money on worthless cheques.

Francis passed the cheques one last year and one in February of this year. It was the latter that caused the police to be started after him. Diligent search failed to locate him and the police had almost given him up. Detective Andy Waddell went over to Victoria to bring back two men wanted for burglary and there he learned that Francis the penman had just been let out after serving a term of three months for raising money on "phony" paper. When he came back all the force in Vancouver were instructed to keep their eyes open for Francis and sure enough Detective Scott having knowledge of his old haunts located him.

He pleaded guilty to both the local charges this morning and in extenuation had nothing to plead except the remarkable excuse given above.

He was sentenced to 18 months on each count, the sentences to run concurrently.

Theft at Vancouver

Vancouver, June 24.—An envelope containing \$425 has been stolen from the safe of the Hotel Vancouver, and the police are busily following up clues which may lead to the discovery of the thief. A few days ago one of the guests at the hotel deposited the envelope, containing \$450, at the office of the hotel for safekeeping, and next day drew \$25. On Saturday he went to the office to draw some more money, when it was discovered that the envelope had been stolen. The police were immediately notified, and are working on the case. The management of the hotel place no suspicion on any of the clerks at present, but it is stated that two men have left the hotel recently, one on Thursday and one on Saturday, and that suspicion rests on them.

COMMISSIONER OF YUKON

Mr. Alexander Henderson Interviewed on His Return from Ottawa

Vancouver, June 24.—"I am going to Yukon to give the best administration I am capable of for the good of the territory. I have no good reason to leave home, as he thought McLain wanted to steal his horses or injure his family, so kept guard over them until McLain left."

In these words Mr. Alexander Henderson, the newly-appointed commissioner of Yukon, expressed his position today with reference to his office.

Commissioner Henderson arrived in Vancouver yesterday morning from Ottawa, where he was sworn in. Just when he will leave for Dawson has not been settled, but it is likely that he will get away within two weeks.

"It is impossible for me to state definitely when I will start north," he said, "as some personal business affairs in Vancouver will have to be settled before I can go. I wish to leave as soon as possible, especially as the government desires that I should be on the scene as quickly as may be owing to the fact that the summer is the busy season with the administration in Yukon. I hardly expect to be able to leave this week, but it is possible that I may get away early in July."

Provision for the housing of the commissioner and his family in Dawson is to be made immediately. Some months ago Government House was burned to the ground, and it is likely that a residence will be leased for Commissioner Henderson pending the erection of another official residence on the site of the burned structure. Mrs. Henderson and Miss Henderson will not accompany the commissioner to Dawson on his first trip; they will go up later in the summer.

The opinion has been expressed that something in the nature of a legislative assembly—the commissioner would become the lieutenant-governor when Yukon is next year given a wholly elective council—which would of what would be practically a new province. When sounded on this point the commissioner declared that he had no intention regarding it, but he did not think that in the event mentioned he would necessarily become a full-fledged lieutenant-governor.

WIRELESS TELEGRAPHY

Is the Result of Prolonged Study and Deep Research

Marconi, the wireless wizard—did not stumble accidentally upon the principles of his marvellous invention. It was only by deep and prolonged study of the cause of certain known phenomena in nature that he was able to produce the startling effect.

Many people in speaking of "hair restorers" have a way of launching them altogether without discrimination. Herpicide is as different from other so-called "hair restorers" and "remedies" as day is from night.

It is a scientific preparation prepared for the sole purpose of destroying the scalp microbe that causes dandruff and falling hair.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes, 50c and \$1. C. H. Bowes & Co., 98 Government street, special agents.

STOMACH TROUBLES

To wrong action of the stomach and impaired digestion a host of diseases owe their origin.

When the food is imperfectly digested the full benefit is not derived from it by the body, and then stomach troubles start to appear.

Thus you become thin, weak, nervous and debilitated, energy is lacking, brightness, snap and vigor are lost and in their place come dullness, dizziness, loss of appetite, depression and languor. The great point is to get the stomach back into good shape again so it can properly digest the food, and the easiest, quickest and best way to do it is by the use of

BURDOCK BLOOD BITTERS

Miss Lizzie Furlotte, Jaquet River, N.B., writes: "I was very much troubled with my stomach and did not know what to do. I consulted several doctors, got medicine from them, but all to no purpose, and was constantly growing worse. One day I had the good luck to meet with a friend who had been troubled in the same way as myself. My friend told me of the wonderful cure Burdock Blood Bitters had made with her and advised me to try a bottle. I did so, and what a happy change the first bottle made. I took two more and am completely cured, and I shall ever sing the praises of B.B.B."

Price \$1.00 per bottle or 6 bottles for \$5.00.

wholly elective council—which would of what would be practically a new province. When sounded on this point the commissioner declared that he had no intention regarding it, but he did not think that in the event mentioned he would necessarily become a full-fledged lieutenant-governor.

TRANS-CANADA FLIER

New Train Service on C. P. R. Becomes Operative on July 1

Vancouver, June 24.—The new Canadian Pacific transcontinental train service between Vancouver and Montreal, which will go into effect on July 1, will be about half a day faster than any possible service across the continent by any railway in the United States. It will also be the fastest train in the world, covering an equal distance.

The fastest American trains leaving New York for San Francisco, Portland or Seattle, take from ninety-seven to one hundred hours to make the run, while the new "Trans-Canada Limited," as the tri-weekly train will be known, will rush passengers from Vancouver to Montreal in eighty-five hours, approximately. It will run faster than any train on any railroad in the United States covers a similar distance.

The fastest American trains leaving New York for San Francisco, Portland or Seattle, take from ninety-seven to one hundred hours to make the run, while the new "Trans-Canada Limited," as the tri-weekly train will be known, will rush passengers from Vancouver to Montreal in eighty-five hours, approximately. It will run faster than any train on any railroad in the United States covers a similar distance.

Flume Now in Service

Dawson, June 24.—The High Day flume on lower Dominion is in service, and is supplying the sluice-head of water daily to miners along the creek, many who had been pumping now buying. The flume is five miles long and originally was built by R. P. McLennan of Vancouver. About four hundred men are working near Granville. The district is stupendous, and there is considerable money in the locality. Four to five dollars a day and board is paid the men. The ground around Granville is being exploited this year more than ever before. Some bench claims have changed hands at \$1,000 to \$2,000 each.

Among the heavy operators this year around Granville is "Speller" Kelly, who has a big gang at work on the upper end of 249. Al Day is busy on 270, at the mouth of Sulphur.

A SALMON DEADLOCK

Canners and Fishermen Disagree on Price for Springs

New Westminster, June 24.—"No more spring salmon at less than five cents per pound," was the decision reached Saturday afternoon by the Fishermen's union, which met at Sunbury to discuss the action of the dealers in lowering the price of fish to four cents per pound.

With this decision reached, it is more than probable that no more spring salmon will be canned this year, though the retail dealers do not anticipate having to do without fish as there are a few ranches up the river who do not belong to the union and will keep on fishing. This will furnish the necessary supply for the local market. The cannery men, however, their determination to stand firm and pay no more than four cents, having, it is claimed, lost money last year by canning at five cents a pound for fish brought in by bugs. They are willing to pay five cents should the fishermen land the fish at the canneries, but will not pay the price for fish gathered up by their tugs, as they claim it necessitates operating the boats for nothing.

It was decided at the fishermen's meeting Saturday to again approach the canners, but nothing has been done in this direction, and as the men determined to catch no more fish if the canners did not accede to their demands, it is probable that they will put their nets away for this year, and await the open season for sockeyes, as they claim that there is no money in fishing for four cents a pound.

The canners also state that they will allow their canneries to remain idle sooner than pay the five cents demanded, so it is more than probable that following the action of the fishermen Saturday, no more canning will be done until the sockeyes start to run, when this industry will again open in full blast.

The tugs belonging to James Anderson, Mackie, Butterfield & Co., and M. Monk, will go out as usual this morning, but the owners do not expect to secure much fish.

The weight of the human body has a certain relation to height and width, and the expert designer of clothes can get the correct measurements. The variations from the average or normal man are accounted for by occupation and environment. The athlete is heavier than the office man of the same height and width. This accounts for the division into types of the Semiradsky physique type system. The sturdy coal miner in Fernie and Lethbridge has a better developed shoulder than the equally hardy resident of Winnipeg.

"Semi-ready" tailoring is not the entire distance to knowing how. It's only a stepping stone, and its makers keep right on stepping.—B. Williams & Co., Yates street.

SACRIFICED HIS LIFE.

Englishman Rescued Two Finlanders, Causing His Own Death.

Fort William, Ont., June 24.—An heroic and successful attempt to save the lives of two Finlanders, who had been imprisoned in the Loch Lomond tunnel after a blast, was the cause of Joe Chichester, an Englishman, sacrificing his life. The scene of the tragedy is where the corporation of Fort William is endeavoring to obtain a pure water supply. All three men were employed thereon. The signal sounded "all clear," and after the explosion it was found that the two Finlanders were missing. Chichester, who was the son of a retired army colonel in the old country, at once entered the tunnel and after battling with the smoke for some time succeeded in bringing one to the surface. He returned and brought forth the other, who had sustained a fractured arm. Both rescued men quickly got around, but Chichester's exertions had been too much for him, and the smoke had suffocated him. His respiration was resorted to for two hours, but without avail, and Chichester thus sacrificed his life. He was 38 years of age and unmarried. The body will be shipped to England.

CANADIAN MINERAL WATERS

Specialist to Examine and Report on the Various Springs

Winnipeg, June 24.—Dr. J. A. McArthur, a specialist on nervous diseases of Ottawa, left this afternoon for a tour of the west, investigating the medicinal properties of the various mineral springs in the neighborhood of the C. P. R. lines. Dr. McArthur

OBITUARY NOTICE

A telegram has been received by the mayor from the chief magistrate of Las Vegas, New Mexico, stating that the death had occurred there of Ernest Harold, the son of an attorney on Vancouver island. No attorney of that name is known in this city and it is thought possible that the deceased may have hailed from the mainland.

The death of George Barrett, an old resident of this city, occurred yesterday at the Jubilee hospital. The deceased for many years carried on the business of a carpenter here. He came originally from Norfolk, England, in the early days of the colony and was well known to most of the older citizens here. The funeral takes place today from Smith's undertaking parlors at 3 o'clock.

The death of Miss Helen Howe, daughter of Dr. and Mrs. J. M. Howe, of Toronto, occurred at St. Joseph's hospital yesterday. Miss Howe who had been in delicate health for some time came to this city last fall in the hope of recovering. Stricken with appendicitis she was removed to the hospital a few days ago where an operation proved no benefit. The remains will be forwarded to Toronto from the Hanna undertaking parlors for burial.

The death occurred at the family residence, corner Edward and Russell streets of the eight day old child of Mr. and Mrs. J. A. Kerr. The funeral takes place today from the Hanna undertaking parlors at 11 o'clock.

The Winnipeg Telegram of a recent date had the following reference to the death of Mrs. Charles F. Thompson, after a month's illness, Mrs. Thompson had recently undergone an operation, from the effects of which she never recovered. The deceased was the wife of Charles F. Thompson, 773 Broadway, who is manager of Kilgour Bros., wholesale dealer in the city.

The death occurred last night at the General hospital of Mrs. Charles F. Thompson, after a month's illness. Mrs. Thompson had recently undergone an operation, from the effects of which she never recovered. The deceased was the wife of Charles F. Thompson, 773 Broadway, who is manager of Kilgour Bros., wholesale dealer in the city.

ELECT OFFICERS.

The following officers were elected at the semi-annual meeting of the Baptist Young People's Union of Cavalry Baptist Monday evening:
President, Miss A. W. Coleman; vice-president, Miss A. W. Coleman; secretary, Miss S. Galbraith; corresponding secretary, S. Patch; treasurer, Miss E. Wilson; organist, Mrs. R. W. Coleman; press correspondent, W. I. Russell; W. Dinsmore and Mrs. W. Russell, were elected members of the executive committee.

The pastor, Rev. F. T. Tapscott, with R. W. Coleman were appointed delegates to the B. Y. P. U. convention at Spokane, July 4 to 7.
Misses M. Andrews, A. Bishop, P. Thomson and C. A. Steele will represent the union at the Christian Endeavor convention in Seattle, July 8 to 15.
It was decided to pay the expenses of a student in the Seminalcotta seminary in India for one year.

The time used is Pacific Standard for the 120th meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. The height is measured from the level of the lowest low water at spring tides. This level corresponds with the datum to which the soundings on the Admiralty chart of Victoria harbor are referred as closely as can now be ascertained.

FINED FIVE DOLLARS FOR NEGLECTING DRILL

Member of Fifth Regiment Found Guilty by Magistrate Hall—Other Cases

One member of the Fifth regiment was before Magistrate Hall in the police court yesterday morning on a charge of neglecting to attend drill at Camp Macaulay and others are to appear later in the week as the officers have decided to take some drastic action in order to bring the indifferent ones to a sense of their duty.

The offender dealt with yesterday was Gunner F. W. Savory. He admitted his absence from drill, but pleaded that he had to work at nights which prevented him from attending camp. W. H. Langley, who conducted the prosecution for Major Hibben, the informant, stated that the accused had neglected to attend drill on more than one occasion, and that he had never requested to be excused. Any member of the regiment who could offer a fair reason for not wanting to attend would always find the commanding officer willing to excuse him.

The magistrate fined the accused \$5 which he paid forthwith, and then there arose the question of what was to be done with the money. Neither Mr. Langley nor the court could call to mind any legal stipulation as how money obtained by fines imposed under the military act should be used, and while they were discussing this, the convicted man offered a solution by declaring his willingness that it should go to the officers mess of the regiment. It was finally decided that the city was entitled to the fine.

After the adjournment of court Gunner Savory expressed his disgust with soldier life and said there were many other members of the regiment who had the same feeling as himself. The action of the officers in prosecuting the men who did not want to attend drill would have the effect of weakening the regiment. There were many like himself whose time was nearly out, and who would not think of re-enlisting. It was a nice thing for the officers, he said, but the life of a private was by no means attractive.

Madame Russell will return to town the first week in July, when she will be ready to resume business with her patrons.

PRINCE FUSHIMI

LEAVES FOR HOME

Sailed From Esquimalt Yesterday on Board British Cruiser Monmouth

LEAVES MONEY FOR CHARITIES

Fifty Pounds to Be Divided in Victoria—Warship Will Be Met by Japanese Fleet

With the golden chrysanthemum on a red-bordered field, the Kwozoku-ki, or flag of princes of the blood of Japan, flying at her mainmast, H. M. first class cruiser Monmouth sailed from Esquimalt harbor shortly after noon yesterday with H. H. Prince Fushimi and staff on board, bound for Yokohama, 1,200 miles away. From the stern trailed the white ensign of Britain, the flag under which the Japanese prince has traveled around the two hemispheres. As the cruiser moved off the prince and his party stood on the awninged decks waving their hats.

At 11 a. m. yesterday morning the prince and his suite, attended by Lieut. Governor Dunsmuir, Miles W. Lampson, M. C. V. O. of the British foreign office; Capt. D. O. C. Newton, A. D. C., representing the governor-general; Joseph Pope, M. C. D. S. O., representing the Dominion government, and W. R. Baker, representing the C. P. R., were driven to the naval yard at Esquimalt in carriages. The order for a guard of honor issued to the Fifth Regiment C. A. had been cancelled and a guard composed of bluejackets of H. M. gunboat was at the naval wharf. Many of the local Japanese were also on the wharf shouting "Sayonara," the Japanese farewell, literally, "If it must be." The prince, as usual, received the acclaim to respond other than a nod or smile. The various officials made the parting guest of the Dominion farewell, and he embarked, while the guard saluted, in the waiting launch of the cruiser, which started immediately for the warship's side. As the small vessel left the gunboat wharf a signaller waved the semaphore of H. M. S. Shearwater and immediately the twelve-pounders of the batteries either side belched forth a royal salute. There were scant intervals between the puffs of white smoke curling from the lead-lined sides, and the sharp echo reverberated through the first of constance cove. As the prince stepped from the launch upon the accommodation ladder the national flag of Japan came down from the masthead and in its stead floated the personal flag, the Kwozoku-ki, of his highness. He was received by Capt. Dunsmuir and officers on the quarter deck and immediately went below.

Thereafter came launches laden with the returning guards of honor, minus a few deserters who had taken flight, and loads of case goods, champagne, liquors, cigars, etc. A shipwright, Ogilvie's Royal Household flour of the grade supplied to the Prince of Wales. There were several contributions of liquors, presents to the officers and crew from the prince, and from Japanese. The Japanese people of the nearby British Columbia cities sent a dozen cases of Canadian Club whisky for the crew, the Japanese consul at Vancouver sent ten cases of Mumm's Extra Dry champagne for the officers, and there were other loads of stores. When these were aboard the launches and pinnacles were swung over the side and the grandly swung over, each launch, of twenty tons or more, being lifted with ease by means of the electric cranes. Booms were swung in, anchors fished and the chain washed, and at 1:20 p. m. the screws began to revolve and the cruiser added away, smoke curling from the three funnels she cut through the water leaving a foaming wake.

Off Yokohama about 200 miles, about two weeks hence, a wireless telegram will be ticked by the torpedo lieutenant to a waiting Japanese admiral at Yokosuka naval yard, and from Tokio buy a big squadron of Japanese war craft will steam out to meet the British cruiser. With booming of cannon from many battleships, cruisers and gunboats, the Monmouth will be welcomed and the Japanese vessels will range on either side in three lines. To convey the grandly cruiser that carried a Japanese prince across the Pacific ocean to Tokyo bay, where the debarkation will take place in the roadstead off Yokohama.

It is expected the warship will occupy two weeks in making the voyage, steaming at an economic speed of about fifteen or sixteen knots.

Before leaving Victoria Prince Fushimi left some moneys to be devoted to charities. Yesterday Mayor Morley received the following telegram from Ottawa in this regard:

"Mayor of Victoria—Am desired by the governor-general to inform you that His Imperial Highness Prince Fushimi has been kind enough to leave \$50 with his excellency for distribution among the charitable institutions of your city. This amount will be placed to your credit by the Bank of Montreal. I am disturbed by the reports of the press that his excellency can inform his imperial highness, Alfred F. Slade, private secretary."

Excursion Rates.
For Dominion Day, July 1 next the Esquimalt & Nanaimo Railway company will apply excursion rates between all stations and in addition to the regular morning trains there will be afternoon trains on the same schedule as the Wednesday Saturday and Sunday afternoon trains. This will afford an opportunity to spend the day at one of the many popular resorts along the line and as Dominion Day is essentially one for private parties, there will no doubt be a large number avail themselves of the additional train service and cheap rates.

Y. M. C. A. Summer Camp
The Y. M. C. A. will open a summer camp opposite the Gorge park on Saturday next. A number of large tents will be erected and ample accommodation for all who desire to spend the summer months there will be afforded. An excellent chef has been secured and it is expected that many of the members will take advantage of the opportunity this year. A meeting will be held this evening to settle the details of the arrangements.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—indigestion.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Dr. Shoop's Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Apply for Hansen's Release

The legal firm of Alkman & Courtney yesterday served Magistrate Hall with notice that application has been made to have his judgment in the case of Peter Hansen upset. Hansen was found guilty on a charge of entering a Chinese restaurant and stealing \$4.50 and was sentenced to one year in jail. Counsel for the convicted prisoner now contend that the trial was not conducted in a regular manner, and that therefore Hansen is wrongfully imprisoned. Application for his release from custody will be heard before a judge of the supreme court next Wednesday.

Judgment Again Delayed

It will be at least another week before the city solicitor Mann, or S. M. Johnson will know the result of the celebrated case in which the latter was accused of violation of the health by-law by neglecting to keep certain premises, of which he is alleged owner, in a sanitary condition. The hearing of the evidence was concluded over three weeks ago. There was a great volume of testimony, expert and otherwise, for the magistrate to review, and he had also to satisfy himself on several knotty points of law that were raised on both sides of the case. He took a week to go into it all, and at the end of that time was still undecided. Then he took another week with the same result, and yesterday morning when the time came round once more he was still unprepared to deliver judgment. There is hope for a decision on Tuesday next.

Cheered the Prince.

A pleasing incident took place yesterday morning on the H. I. H. Prince's departure from the Government house. As his carriage passed the Laurels the home of the Collegiate school, the staff and girls turned out in a body, and gave him three ringing cheers, which he suitably acknowledged by a military salute.

The Ladies of First Presbyterian church, are holding a "garden fête" and sale of work at the residence of Mrs. James Hastie, 157 Fisguard street on the afternoon and evening of Wednesday, June 26th. Strawberries and cream as well as ice cream and tea and cake, will be on sale. No admission.

Something that is appreciated by many Victorians and yet unknown to a few is the direct representations of the toilet preparations of Dr. Cristion, of Paris, the celebrated Court Dermatologist of Europe, as with all his preparations they contain no dyes or harmful ingredients, nothing but that which will help nature in a natural way. Gray Hair Elixir stops the hair falling out, giving it new life, also returns gray hair to its natural color, contains no dye or oil. Ladies and gentlemen calling will receive full information of all Dr. Cristion's French Toilet Articles, and a booklet of his valuable recipes free. Mail orders given special attention. Mrs. F. K. Winch, 129 Cormorant St., hours 11 a.m. to 8 p.m.

Eaton Hurlbut's Hot Pressed Velum in the new shape "Gladys" with long narrow envelope. Victoria Book and Stationery Co., Limited.

PRIZES SECURED FOR THE FALL EXHIBITION

Several New Trophies Are Put Up—Judges Are Coming From Winnipeg

Arrangements are being made to have a number of those who will officiate as judges at the Winnipeg Exhibition next month come to the coast act in the same capacity at the Provincial exhibition here in September. The Agricultural association is now in communication with the Winnipeg association in this connection. The prize committee of the British Columbia Agricultural association was out on another still hunt for prizes yesterday and met with considerable success, a number of new trophies attached to the programme as a result.

The British Columbia Land and Investment Agency offers a silver trophy cup for the best exhibition of commercial fruit grown east of the Cascades. As there is already a trophy for fruit west of the Cascades this department is well provided for. W. B. Shakespeare the Government street jeweler, donates a trophy valued at \$25 for the best fifty pound display of cream butter in prints. Both this trophy and the Investment company's cup must be won two years in succession to become the permanent possession of anyone.

Mayor Morley has presented a cup for the largest family at the exhibition on September 27, the family not in competition now since 1902. In that year the Royal Garrison artillery was the winner. In 1903 No. 5 company of the Fifth regiment, C. A., carried it off. In 1904 the Royal Engineers were the successful team. In 1905 there was no competition but last year the Victoria police department proved invincible.

Trapshooters will have their inning at the big fair as usual when the Four Crown challenge cup open to any member of a recognized gun club in British Columbia, Oregon and Washington will be shot for. The trophy must be won three times by anyone. The trophy has been won by Otto Weller of this city has already scored two wins so that if he lands on top this year, the cup is his. The cup has been shot for since 1902 and the winners each year has been: 1902—Otto Weller; 1903—E. E. Ellis Seattle; 1904—W. N. Lenfesty; 1906—Otto Weller.

County Court Session

There will be a session of the county court on Monday July 8 at 11 o'clock

PREPARATIONS FOR MEETING OF SYNOD

Annual Gathering Will Be Held At Nanaimo In August

The regular quarterly meeting of the Anglican synod was held yesterday when the programme was drafted for the annual meeting which will be held at Nanaimo on August 21-23. The order of the synod was appointed as follows:

Wednesday, August 21, 8.30 p.m., evensong.

Thursday, August 22, 8 a.m., Celebration of Holy Communion, 10 a.m., First session, Luncheon 1 to 2.30 p.m., Second session, 7 p.m., Moonlight excursion.

Friday August 23, 9.30 a.m. Matins, 10 a.m. third session, Luncheon 1 to 2.30 p.m., 2.30 p.m., fourth session, 8 p.m., missionary meeting.

Canon Beauland and Rev. Mr. Miller were appointed a committee to arrange for the speakers at the missionary meeting. Notices of motions must be in the hands of the secretary not later than July 16 next.

At yesterday's meeting there were present the lord bishop in the chair, Ven. Archdeacon Scriven, Revs. Canon Beauland, J. H. Lewis, G. G. Miller, C. S. Cooper, A. Silva-White, R. Cornhill, W. Baugh Allen, J. A. Leakey, J. Grundy, and Messrs P. Wollaston, E. Baynes Reed and F. Burrell.

The lord bishop having reported opened the hospital at Van And and had promised a grant to the same. He also reported the illness of Rev. Wilson and that Rev. Mr. Simonds was taking the duties on Salt Spring island.

Rev. Mr. Leakey stated that the people in the neighborhood of Shawnigan lake had joined very heartily into the scheme for holding tent services in that locality.

The lord bishop reported having secured the services of Rev. A. Heath, for the incumbency of Ladysmith and hoped that Rev. Mr. Leakey would undertake the duties at Cumberland. Ven. Archdeacon Scriven read a digest of the committees report on the Northern Deanery which was adopted by the committee.

After a short discussion regarding the Christ Church cathedral building fund, the Nanaimo trust fund and the Nanaimo graveyards, meeting adjourned.

On Suspended Sentence

Two boys charged with stealing packages of matches from Todd's warehouse, Wharf street, pleaded guilty yesterday morning and were allowed their liberty on suspended sentence, their parents providing bonds of \$50 each for their appearance when called upon.

Is Returning North

D. Cadzow of Rampart Fort, on the Porcupine river who came down from his home, one of the trading stations farthest north with a valuable pack of pelts expects to return north on the initial trip of the Princess Royal scheduled to take place July 6. Mr. Cadzow goes to Skagway thence to Port Yukon by steamer, thence by canoe for over 200 miles up the Porcupine river to Fort Rampart.

DIOCESAN BOARD OF WOMAN'S AUXILIARY

Large Amount of Business Was Done At Meeting Held Recently

The regular meeting of the diocesan board of the women's auxiliary to missions of the church of England in Canada was held on Friday, June 14, at the house of Mrs. Rogers, Lake District, on the arrival of the afternoon train. There were 50 members of the board present.

The meeting opened with prayers read by the president Mrs. Perrin, after which the roll was called and the minutes of the last meeting read and adopted.

Mrs. Wollaston, the treasurer's account showed receipts of \$53.00 and disbursement of \$123.48 during the month. She spoke of the money received at the morning service of annual meeting and thought that it should not be added to the general fund, but should be devoted to some special purpose; therefore it was resolved upon motion of Mrs. Wollaston, seconded by Miss Ard, "That the money be sent to the church in Alberni to provide for some special object."

Mrs. Cooper, the corresponding secretary read letters from Mr. Gray, Mayne island acknowledging receipt of money for parsonage; from Mrs. Falls, Huxon diocese, greeting for annual meeting; from Mr. Antle thanking the board for the great assistance rendered to Van And hospital from Mrs. Hall regarding the pledges; from Mrs. Hall concerning resolutions and appeal from the executive committee.

Mrs. Hisecks, the Dorcas secretary, reported that St. Paul's parish had furnished a bed for the Van And hospital valued at \$781 that Christ church had sent a bale to Lytton hospital, and were at present working on outfits for two children.

Miss Sill, the leaflet secretary reported nine new subscribers for the month. Mrs. Toller, the literature secretary reported that books had been received for the library from Mrs. Cooper and Miss Ard; that the committee were preparing short papers on the pledge to be circulated among the preachers. She asked for a gelatine copying pad, and Mrs. Beaven, one of the members kindly offered for use.

Miss Richardson, C. C. M., literature secretary reported two large boxes and one small one of books dispatched during the month. The boys' auxiliary had sent a large supply of neatly covered magazines, and the choir boys of the cathedral a parcel of books.

Miss Moore, the junior secretary treasurer, had no report.

The president then explained that owing to a letter from Mrs. Hall, a slight change had been made in the distribution of the pledges. Money, i. e. \$5 had been taken from pledge Lae la Rouge and given towards salary for a bible woman at Seoul, Korea. The matters of printing was then brought forward, and estimates of cost were received. After some discussion it was moved by Miss Woods, seconded by Turner and carried that new pledge cards be printed.

Also it was resolved upon motion of Miss Turner, seconded by Mrs. Smith that the annual report be printed for circulation among the members.

Also it was resolved upon motion of Mrs. Wollaston, seconded by Miss Turner that letter heads and envelopes for the use of the diocesan officers be printed.

As the time was growing short all the branch reports could not be read, but there were reports from St. Paul's, St. Barnabas, Christ Church girls, and St. Saviour's.

After tea was served by the members of St. Michael's parish the doxology was sung and members hastened to catch the train for Victoria, bringing a very pleasant meeting to a close.

Will Make First Trip.

E. Blackwood, steamship agent, has been notified by the North German Lloyd that their Atlantic company ship Kronprinzessin Cecilie will make her first trip across the Atlantic sailing from Bremen, August 6. The new vessel is one of the largest on any ocean. The new Cunard turbine will likely make her first trip from Liverpool to New York on August 14.

W. C. T. U. Meeting.

There will be no meeting of the W. C. T. U. on Thursday next owing to so many of the officers and members being in attendance at the Provincial convention now being held in Vancouver. Then next meeting will be held in the hall on Yates street on July 11, when reports of convention will be received.

WORK OF FILLING IN FLATS GOING AHEAD

Good Progress Is Being Made by the City's Portion of the Undertaking

The city has already supplied 4,000 cubic yards of the filling for the C. P. R. flats and the work is being undertaken with as much celerity as is possible. There has been no decision as to what will be done with the C. R. claim that the city is bound to supply 5,000 cubic yards of filling in addition to the 22,000 yards which admittedly they undertook to provide.

It will probably be given consideration at a future meeting of the council.

The supply of dry filling available is limited and it will soon be necessary to draw upon the source of supply at the city's property near the Willows.

RARE EXPONENTS OF THE CABINET MAKERS' ART.

The cases of the New Scale Williams Pianos are indeed rare exponents of the cabinet makers' art. Nothing made surpasses their chaste simplicity, or, if you are a lover of the ornate, the gorgeousness of their finish.

The New Scale Williams Piano itself, however, is the real value of the instrument, and it fully carries out the promise of its beautiful exterior.

REJECTED STUDENTS WILL TAKE ACTION

Those Who Did Not Pass Dental Examination Want Matter Probed

The dissatisfaction prevailing among all those dental students who wrote at the examinations recently held in this city, has taken definite shape, and acting as a body, the rejected candidates will leave no stone unturned in their efforts to obtain a remedy for what they allege is unfair treatment at the hands of the examining board.

One of their number was in the city yesterday to obtain legal advice in the matter, and in conversation with a reporter for the Colonist explained the position of the rejected candidates. "We charge," said he, "unfair treatment at the hands of the examining board. Just in what particulars we were unfairly treated is a long story, but we are so thoroughly convinced that our suspicions are well founded that we purpose pressing for the fullest enquiry into the matter by the government, if we can get no remedy for our grievances in any other way. We think it is a matter which a royal commission might very properly inquire into, and we shall likely ask that one be appointed."

"My own experience is typical of that of other rejected students. I took my initial studies in eastern Canada, compiled in every way with the provisions of the Dental act, and came west and became a student here, being located in Victoria for about a year and a half. I figure that altogether I have spent no less than \$1,000 in learning dentistry. I was rejected, on what grounds the board of examiners refused to tell me. I went to Seattle, was immediately admitted to practice there, and am now employed by one of the best firms in that city at \$150 per month. In my studies in Victoria I was getting \$40 per month. I am a Canadian. I want to live in Canada. Preferably, I want to live in Victoria, but I am not given the opportunity to practice my profession here, to which I think I am entitled, so I must go elsewhere. "I have seen the state of California there are 1,500 certificated dentists. In British Columbia there are about 70. Does it not seem open to suspicion that attempts are made here to prevent the numerical increase of dental practitioners, to the profit of those already in the practice? At any rate, we are going to find out, and we look to receive the moral support of the public in our effort."

Will be Probated

The will of the late Lee Garrett Burns, proprietor of the Bee Hive Saloon, has been probated by Judge Irving. The entire estate valued at \$1,421.17 is left to the widow, Anna Charlotte Burns. The assets amounting to \$2,750, but there are liabilities amounting to \$1,328.83 against this.

No Tenders Received

The date for receiving tenders for the construction of the new normal school in Vancouver has gone by, and the department of lands and works is without a single offer to take the contract. An advertisement calling for tenders was published continuously from June 6 to 24, and plans and specifications were on view in Vancouver, New Westminster and Victoria.

Your child's feet are growing.

The 26 bones of which each one is made up are not completely formed yet. They are principally cartilage—soft and pliable as compared with your own.

Now see what you do when you put the average child's shoe on that little growing foot. It cramps it up, distorts it. The soft bones grow and harden in this ill-shaped condition, and the child is crippled for life with corns and bunions.

There is only one shoe made in Canada which won't do this. That is the Instructor Shoe.

The Instructor Shoe is the result of the careful study of the human foot. We have designed it so the foot is perfectly free to grow—fitting snugly over the instep and giving each toe lots of room so it can lie out flat and comfortably.

Another good thing about the Instructor Shoe is that we make it of the very best leather—cut from the centre of the hide where the grain is tough and wear-resisting.

If your shoe store cannot supply you don't stop at that. Write us and we'll see that you get the Instructor Shoe—real foot-comfort for your children.

Every pair has the name stamped on the sole—our guarantee.

An Absolute Cure for Rheumatism

If the skin or bowels are unhealthy, they won't throw off enough urea. This urea is changed into uric acid—carried by the blood to the nerves—and causes Rheumatism.

Fruit-a-lives surely cure Rheumatism and Sciatica

because they act directly on bowels, kidneys and skin—and so strengthen and invigorate these organs that there is no urea and uric acid retained in the system to irritate the nerves and bring Rheumatism, Sciatica and Neuralgia.

"Fruit-a-lives" are intensified fruit juices with tonics and intestinal antiseptics added.

50c. box—6 for \$2.50.

Fruit-a-lives

OR (FRUIT LIVER TABLETS.)

Hummel's Coadjutor.

New York, June 24.—The voluntary surrender of Edward M. Bracken, a private detective, who is charged with conspiring with Abraham Hummel and others in the famous Dodge-Morse case, today served as a reminder that all the ratiocinations of that extraordinary case are not yet disposed of. Bracken was indicted together with Hummel, who is now serving a term in the penitentiary for conspiracy. Today he made arrangements through counsel to surrender. He was released in \$2,000 bail.

Only One "BROMO QUININE"

That is LAXATIVE BROMO Quinine. Similarly named remedies sometimes deceive. The first and original Cold Tablet is a WHITE PACKAGE with black and red lettering, and bears the signature of E. W. GROVE, 25c.

U. S. and France

Paris, June 25.—It is announced that the French Ambassador at Washington, M. Jussard, will return to France shortly and submit to the foreign office the propositions of the United States and the result of his negotiations with Secretary Root regarding a new commercial agreement between France and the United States. It is now hoped that a mutually satisfactory arrangement or treaty will be negotiated.

Semi-ready Summer Suits \$15 and \$20

Fine Two-piece Summer Worsteds, at \$15, \$18 & \$20. Can be worn with fancy or plain Wash Vests at \$3.50 to \$5.

Your Clothes Talk

They are the eloquent outward semblance of your inward taste and expression. If you have "horsey" tastes or "sporty" instincts you unconsciously make the revelation in your clothing—if you choose for yourself.

If you have the artistic sense developed, that becomes apparent too, in your choice. Clothes reflect the inward man.

Semi-ready clothes have gained credit for a cultured taste and a cultivated expression in both fabric and design.

Semi-ready Tailoring B. WILLIAMS & CO.

EMMERSON-CROCKETT LIBEL TRIAL PROGRESS

Prosecution Must File An Answer to the Defendant's Pleas

From Eastern exchanges just to hand, particulars are available as to the progress of the Emerson-Crockett libel trial at Fredericton, N. B. On Wednesday of last week, another adjournment was taken in the Emerson-Crockett case, despite the protest of the defence that there was no necessity for putting off the matter any longer. The prosecution's ground for the adjournment was that the crown might draw up a demurrer to the pleas filed by the defendant. In these facts published are repeated and justification is claimed on the ground that the facts are true, that they are in the public interest, and published in order that the public life of Canada might be purged of the presence of a man whose conduct was such as to make him an undesirable person to conduct the affairs of the country.

Both Mr. Emmerson and Mr. Crockett were present in court, as were men called upon to serve as petty jurors, while a great crowd had gathered in expectation that either the case would proceed, or there would be a big legal battle.

Mr. Emmerson has greatly improved in appearance since the preliminary enquiry, and is now looking somewhat like his former self, albeit a little nervous at times.

Defendant is Confident

Mr. Crockett is as jaunty and smiling as ever, appearing thoroughly satisfied with himself and the world at large. His only complaint is that the case is not going on fast enough. He professes to feel quite confident of the result.

All sorts of rumors were rife in Fredericton and St. John. It had been stated by the St. John Star that rumors looking towards a compromise had been made by the defence. Mr. Crockett in the presence of his leading counsel, Mr. J. Douglas Hazen, M. L. A., and his brother, Mr. Oswald Crockett, M. P., and Dr. W. H. Crockett denied that any overtures had been made on his part.

"The very contrary has taken place," he declared. "I have been approached by parties who have intimated that a very easy compromise could be arranged, but I have refused to stand my ground, and I stand ready to prove the case, as soon as the delays brought about by the crown are overcome."

As to G. W. Fowler

A good deal of comment is being indulged in by the spectators regarding the absence of G. W. Fowler, M. P., during the trial. Mr. Fowler is president of the Gleaner Publishing company; he is also, as is well known, the author of the famous phrase-out of which the Emerson-Crockett cause celebre arose. His political fortunes hinge more or less on the trial. His natural place, therefore, in the opinion of many people, is in the ranks of counsel for the defence. At present Mr. Fowler is somewhere in Alberta or British Columbia breathing long distance threats of slaughter against "two more Cabinet Ministers," who, he says will shortly have to retire from the ranks of the Laurier administration. Mr. Fowler went west just before the opening of the trial, and has been there ever since, although there is good reason to believe that New Brunswick friends have urged him to return to take part in the conduct of the case and aid in clearing up a situation which he himself has largely created. His continued absence and silence are construed as a refusal, and give rise to much unfavorable comment on the member for Kings-Albert. First, it is pointed out, he made grave charges in parliament, which he never "made good." Now, again, in an hour of crisis as far as (what is considered) his personal organ is concerned, he takes himself out of the province and remains out. There is good reason to believe, too, that Mr. Fowler did not contribute one iota of evidence in the present libel case, and that had Mr. Crockett depended upon his generalities and unsupported statements, the result would have been disastrous for the defence. Finally there are recurrent rumors of a "deal" which is alleged to have taken place during the dying days of the session at Ottawa, whereby the Fowler charges were to have been stifled in every possible way. This compromising refusal of an "arrangement," whether from friend or opponent, has put an entirely different complexion on the case from what was aimed at by intriguing politicians in both camps.

Indictment Was Read

At the opening of the court, Mr. J. H. Crockett was called, the indictment was read over by Mr. Campbell, clerk of the crown, and the defendant called upon to plead. Mr. Douglas Hazen, his counsel, arose and read the following plea:

"In the matter of the King vs. James H. Crockett.

"The defendant, James H. Crockett, as a first plea, to the indictment against him, says that he is not guilty as alleged in the said indictment."

"J. Douglas Hazen, of counsel for the defendant, and for a further plea, the said James H. Crockett, pursuant to the statute in that behalf, says that Our Said Lord The King ought not further to prosecute the said indictment against him, because he says that it is true that Henry R. Emmerson was ejected with two women of ill-repute with whom he had been keeping company not long since, meaning thereby not long before the publication of the Daily Gleaner of March twenty-seventh, A.D. 1907, from the St. Lawrence Hall in the city of Montreal, as alleged in the publication set out in said indictment;

"And said James H. Crockett further says that before and at the time of the publication in the said indictment mentioned, the said Henry Emmerson was minister of railways and canals in the government of Canada, and that the personal morals and conduct of members of the government of Canada were and are matters of public interest and had been discussed in parliament and in the press, and it is desirable and proper in the public interest and for the benefit of the public that facts of a disgraceful and degrading character in the lives of ministers of the crown should be made known and published, so that the government of Canada might be purged of men whose personal character rendered them unfit and undesirable as ministers of the crown; by reason whereof it was for the public benefit that the matter so charged in the said indictment should be published, and this he, the said James H. Crockett, is ready to verify whereof he prays

judgment, and that by the court here he may be dismissed and discharged from the said premises in the said indictment above specified."

Mr. Justice Landry, turning to Hon. W. Pugsley, asked whether the crown joined issue on that plea.

Mr. Pugsley's Statement

Mr. Pugsley replied that he wished to file a demurrer to the pleadings of the defence.

The questions raised in the second plea, he declared were of enormous and far reaching importance. It seems to imply that the same law does not apply to ministers of the crown and to ordinary members of parliament.

My own view, said Mr. Pugsley, "is that this plea is not properly a plea of justification. This is a matter which raises the whole question of license to be granted to the press. I received the plea of my learned friend late last night at my room at the hotel, and I have been unable to prepare a demurrer in the short time at my disposal. It will take some time to do this work, as I have to consult with my associates and study authorities on the question. I would, therefore, suggest that the court take up the civil cases and adjourn this case until the rival suits are determined."

Speedy Trial Demanded

Mr. Hazen protested against such a suggestion. The defendant was before the court, ready to proceed, and anxious to defend himself of the charge. He was entitled to be heard at once. The filing of a demurrer was not a matter which demanded much time, and could be done almost any time. He would not oppose a reasonable adjournment to prepare the demurrer, but he certainly did not believe it would be justifiable to lay his case over while the civil suits were being heard, as these might take several days. Meanwhile the defendant was at very considerable expense. He had some half dozen witnesses here, all brought at very considerable expense from outside of the province.

Dame Fashion's Dictum

A new effect is given to the waist on the upper figure by the addition of simulated Mikado sleeves. These are straight bands of lawn and lace, tucked like the waist and sewed in place over the sleeve of the waist. The other waist is of plain white China silk, trimmed with cream lace the same shade. The girdle is of and having a tucked front of net, cream-colored "liberty satin."

The expense too was growing all the time

Mr. Pugsley replied that his learned friend should know that in a libel suit a plea had to be entered, and there might be a demurrer. The nature of the plea was such, in this case, that if it were maintained when the demurrer was argued it might be necessary for the crown to summon witnesses from a distance. The crown could not do this until the plea had been filed. As to the pitiful plea that the defendant was under large expense, it could not be entertained. The defendant had large funds at his disposal, as was shown by the manner in which the whole country had been scoured in all directions in the search for witnesses and information bearing upon this case.

Judge is Against Delay

Mr. Justice Landry declared that he would not consider himself justified in refusing the application of the crown for an adjournment to prepare a demurrer. As to the length of that adjournment, he would be guided by the counsel on both sides. His own view was that both sides should have been ready to proceed at once, as there had been an exhaustive preliminary investigation, which revealed the line of defence. He would, therefore, adjourn the case until tomorrow at 10 o'clock, but in the meantime, if the crown was ready with the demurrer at half-past two today, he would interrupt the civil proceedings and take up this case this afternoon.

Dr. Pugsley bowed to his decision, and declared his belief that he would be ready to proceed on the demurrer at 10 o'clock the following day. Mr. Justice Landry expressed the hope that there would be no further delay and that the case would go forward at once when taken up then.

It is stated here, however, that Mrs. Allen, one of the ladies mentioned as having been at the St. Lawrence hall in company with Hon. J. R. Crockett, is ill at her home in Montreal and unable to appear in court. It is intimated, however, that Mrs. Beuther, of Quebec, will be called upon to give her version of the affair.

Meantime the witnesses from Mont-

real are enjoying the beautiful weather and the charming surroundings of the New Brunswick capital.

In his address to the jury, Judge Landry yesterday congratulated the jurors upon so many of their number being in attendance and also congratulated the country upon the excellent appearance of the interior of the court house, which he said was most creditable. He suggested that they might consider the alleged dangerous condition of wharves along the river front through their not being properly lighted or protected, and drew their attention to the death of young Hickey of Amherst, N. S., in a cell, at the local police station, some weeks ago, from a dose, self-administered. It was their duty, he said, to make recommendations concerning these matters if they wished so to do.

In referring to the libel case, His Honor said: "You have not a very hard duty to perform this morning. There is only one case which will be brought before you, that is the case of the King vs. James H. Crockett, for having published a criminal libel against Hon. Henry R. Emmerson. Your duty will be to look carefully into the evidence presented to see if it warrants your presenting a true bill, when it will be brought before the petit jury. You will listen to one side presented by the crown. If you should find, however, that there is not sufficient evidence to warrant you in bringing in a true bill you should not do so, in order that no unnecessary expense should be put upon the country, and no person should be put upon trial who has not done such acts as will entitle you to find a true bill. It is your privilege and your right to find upon the facts presented. There does not seem to me to be much evidence to find a true bill upon. Use your own judgment in this matter, not a knowledge based upon anything superficial."

The charge against Mr. Crockett in the information is that he published in a newspaper in this city under the heading "In Parliament," the following

PLAN OF THE DEFENCE IN THE HAYWOOD CASE

Will Strive To Show That Conspiracy Existed Among the Mine Owners

Boise, Idaho, June 25.—Beginning with the appearance of the first witness on the defence on the stand today, the story of Harry Orchard's life will be traced by a succession of witnesses called, not to sustain, but to contradict all the material facts testified to by the chief witness against Wm. D. Haywood. Orchard, himself, will be in court again today and counsel for the defence will lay the foundation for his impeachment.

The presentation by Clarence Darrow, the attorney who is conducting the defence, has cleared the stage for the new interpretation of the motive of the principal actor, or as defence claims, the pupil who played the principal part in the many tragedies and stirring events between 1899, when the troubles in the Coeur d'Alenes were at their height, and the close of 1901 when Former Governor Steunenberg was assassinated, followed by the arrest and confession of Orchard, and the arrest of Haywood and Pettibone in 1906.

Mr. Darrow's development of the grave offence attributed to Orchard and his explanation of the circumstances on which the state of Idaho basis its claim that he is guilty in common with Pettibone and Meyer of a conspiracy to murder the leaders opens a field against the methods of the Western Federation of Miners, which opens a field for conjecture. The defence claims they will, through their witnesses, be able to completely convince the jury and public that for years a conspiracy existed among the mine owners and employers of labor in the states of Idaho and Colorado, to wipe union labor from the mining field.

After Orchard is examined today, evidence for the defence will be given by Colorado and Cripple Creek witnesses who are here to swear that Orchard was the confidant of the mine owners that they planned and he was selected to execute a number of crimes.

The defence positively states that it is not their intention to convince the mine owners of murder in the Vindicator mine and that the Independence depot explosion where 16 men were killed, but that the deaths were accidental. They even go so far as to assert that Orchard draws on his imagination in his relation of his connection with the Vindicator mine and the Independence depot and that he was not there at all.

"On the other hand counsel for the state do not seem to be disturbed. It is stated most positively that cross-examination and rebuttal will show that the defence has built up a clever fabrication that will fall under rebuttal like a house of cards."

It was quite evident from the statements made by Mr. Darrow that the defence proposes to admit the connection between Orchard and Haywood, and they admit that Orchard was at one time employed by Meyer. But it is claimed that these connections were perfectly legitimate and had nothing to do with a conspiracy, that Orchard was a traitor and that he sought employment and connection with the officers of the Western Federation under the guise of a union workman and a member of the Masonic fraternity, all the time being a detective employed by mine owners and their detectives.

The one great crime the defence admit that Orchard committed is the murder of Steunenberg and running through the whole of the testimony will be the motive Orchard had in seeking revenge on the man who as he thought had robbed him of his interest in the Hercules mine.

The claim that the defence will rest in eight days is looked upon as quite speculative, as the cross-examination of many of their witnesses probably will take considerable time. The state expects to take a week in rebuttal and the end of the case is not looked forward to with any degree of certainty until the last week in July.

WHY ARE YOU SICK?

Join the Ferrozzone Health Club

These clubs are springing up all over the country. They embrace careful diet, fresh air, water drinking and the use of Ferrozzone.

Thousands have been cured—raised to health from a condition of nervousness and semi-invalidism. First of all Ferrozzone is a body-builder—those taking it immediately increase in weight, which proves how highly it improves digestion and assimilation.

Then Ferrozzone is a blood former. Thin colorless blood, even in single week shows a great increase in red cells and coloring matter. This is why Ferrozzone makes thin colorless people glow with ruddy health. When the nerves are taken into account, Ferrozzone shows its marvellous power. Morbid thoughts, depression and sleeplessness disappear as mist before the sun. The nerves are made strong, given energy that withstands the wear and tear of hard toil or worry.

Altogether there is no remedy to equal Ferrozzone—it builds up surely and effectively. For the weak, the sickly, those affected with nervous insomnia or languor, Ferrozzone is a boon; try just one box and see the enormous good it will do. Sold by all druggists in 50c boxes.

Engineer Disappeared

Ottawa, June 24.—Engineer Dewar, of Ottawa in charge of a light engine, said to have caused a collision with a freight at Eastman's Springs on Saturday, in which brakeman Wm. R. Douglas was killed, cannot be found and is believed to have lost no time in leaving the country. The intention was to hold Dewar pending an investigation, as his engine did not have the right of way, but when the police went after him today he could not be located. This is the second case of the kind in less than a year, Engineer Champness, who caused a wreck on the G. T. R. Sound division, having also disappeared.

ALBERNI TOUR OF AUTO CLUB EVENT OF SEASON

Biggest Run of the Kind Ever Held in British Columbia Starts Saturday

The event of the season in local automobile circles will undoubtedly be the big club run of the Victoria Motor club to Alberni, starting Saturday and extending over Dominion day. No less than twenty members of the local club will take in the run, including a number of ladies who will drive their own machines. There are a number of motorists coming over from Vancouver and New Westminster for the outing and the tour will be the biggest affair of the kind ever held in British Columbia.

The Victoria club has made extensive preparations for the enjoyment and comfort of those who take in the trip over this beautiful route and the tour, providing the weather conditions remain favorable, should be most enjoyable. The roads are fairly good, while the country to be traversed is probably the most picturesque on the island, the scenery along the route being of the most diversified description.

The start will be made from here on Saturday morning early and the members will spend that night in Nanaimo, where the club has made arrangements for accommodation up to 42 rooms. Gasoline and oil will be placed along the route so that there will be no stoppages on account of a lack of these essentials. Two mechanics will accompany the party to attend to all breakdowns. On Sunday the trip will be continued to Alberni. The return journey will start on Monday morning.

For the convenience of those drivers who do not want to go over the Sooke Mountain road, R. P. Butchart has arranged for an alternate trip round Saanich way. He has provided a scow to be in waiting at Saanich to convey the autos to Mill Bay. The scow will leave Saanich at 9 o'clock sharp on Saturday morning.

There will be a meeting of the Motor club tomorrow evening at the Garesche building to complete the arrangements for the tour.

TO FIGHT IN OPEN AIR.

Monster Stadium to be Erected for Squires-Burns Fight.

San Francisco, June 25.—The open air stadium at Columbia, 1411 S. S. and Tommy Burns will meet in their 45-round contest for the championship of the world, is intended to be a permanent structure in which other fights may be conducted. In fixing its capacity, with nearly 10,000 promoter Jim Coffroth had in mind the attendance of 10,101 at the Jeffries-Corbett bout. The coming contest will begin at 2 o'clock p. m. on July 4.

VANCOUVER RACES SATURDAY.

Many Victoria Enthusiasts Will Go Over for the Sport.

Vancouver, June 25.—It is now practically assured that the Dominion Day meeting will be the biggest success known in Vancouver. The Jockey club has been successful enough in getting his honor Lieutenant-Governor Dunsinville to allow them to hold the meeting under his patronage and he will honor the club by being present on Dominion Day. It only remains for weather to see the pretty Hastings race track black with people. The horses are beginning to arrive, five came in yesterday on board the Charmer, some are already on the track, and a bunch are coming from Ladners, after racing there on Wednesday, and the Seattle contingent come on Thursday. All the stabling accommodation on the track is already booked and the club has had to make arrangements for stabling the other horses that are expected.

The track will be found in apple-pie order on the day, the members' lawn, with the new box, being erected for his honor, the governor, and the flower beds that will be placed about the paddock will make the place look very bright and picturesque.

BURNETT FOR BIG LEAGUE

Giant First Baseman of Tacoma Team Sold to St. Louis

Jack Burns, the giant first baseman of the Tacoma team, is to be a big leaguer. He played his last game with Tacoma yesterday and started for St. Louis. McCloskey has bought the youngster, and if he gives him a chance Burnett will make good. The deal for Burnett came about in a peculiar way. A friend of McCloskey's saw Burnett play in Spokane last week and wired Mac that the big, lusty youth was just the man to guard the first sack on the St. Louis National League team. Mac wired President Shreder, of Tacoma, for terms on Burnett. Shreder did not want to part with his first baseman, and just to stall he named a figure that he thought would stagger the St. Louis manager. To his surprise Mac came right back at him with the announcement that the money was ready and to ship Burnett to St. Louis. The price is not made public, but it is said to be the largest sum ever paid for a player in the northwest.

SATISFIED WITH SPIRIT

Seattle Yachtsmen Confident of Capturing the Alexandra Cup

Seattle, June 25.—The Spirit, the challenger for the Alexandra cup, has done everything asked of her so far, and the members of the Seattle Yacht club are pinning their faith on young Ted Geary, the designer, builder and skipper of the challenger, to bring the beautiful trophy to Seattle. Yesterday the Spirit defeated the Winona and Lup in a race that was but little better than a drifting match, winning over the Winona, the second boat, by sixteen minutes. Another race will be sailed Wednesday and then the Spirit will be turned up for fair for the big international race with the Alexandra.

LADNER'S RACES TODAY

British Columbia Futurity Stakes Feature Event on the Card

New Westminster, June 25.—One of the most interesting days of horse racing of the season will take place at Ladner on Wednesday and there promises to be a large attendance of horse owners and fanciers from this city and Vancouver. The programme includes several trotting and running races, the most important of which is the British Columbia Futurity Stakes, which will be the first race of the kind ever held in this province.

KAISER CHATS ON SPORTS

Would Establish Permanent Greek Stadium in the Grunewald

Berlin, June 25.—Emperor William, who, among his numerous claims to fame, is responsible for the growing love of sport of all kinds among the German people, has just lent his powerful influence to the project for the erection of a permanent Greek athletic stadium in the Grunewald Forest, on the outskirts of Berlin.

In speaking at the Hoppegarten races this week to the delegation of sportsmen who had launched the stadium enterprise, the emperor said: "The maintenance of the stadium will contribute enormously to the popularization of sport among us."

"It is highly necessary in these days of relentless energy and the daily increasing struggle for existence that the human race should, more than in the past, find relaxation in healthful sport."

"Many outdoor pastimes are, in my judgment, the best means of developing freshness and power of resistance among our youths, thus fitting them for the battle of real life. Especially vigorous mental workers and students have in sport a highly valuable and required change of occupation."

EXPECT GREAT SPORT AT SEATTLE REGATTA

Full List of Entries Is Assured for Every Event on the Programme

Seattle, June 25.—The Vancouver and Victoria crews which are to compete in the annual regatta of the North Pacific Association of Amateur Oarsmen are expected to arrive here this evening to acoustom themselves to the local course over which the races will be rowed on July 3 and 4.

The Nelson and Portland crews are expected in not later than Friday, and the local crews are already training for the big events.

The Seattle crews must be taken as an uncertain quantity in the regatta, but it is not believed they will be particularly dangerous to the trained visitors. The local men have not yet grown accustomed to their shells, nor to the other individuals in the boat, while the outside crews have been training since early spring for this regatta. The Seattle Rowing and Canoe club has shown enterprise in putting in crews at a late date. Al Goldsmith has stepped into the breach, and while the local colors may not be borne to victory, Seattle will be able to claim the credit of a well-managed meet.

The objects of these rowing clubs is largely to develop oarsmen and the interest in this line sport in Seattle is now in the position of having to use oarsmen developed elsewhere, and the local club has taken no action towards developing some of the excellent material among the younger men in this city.

Great Race for Fours

Vancouver can look with pride upon her crews. Norman C. Savers, the Vancouver crew, is the favorite, is the result of home development, and practically all the other oarsmen from that city were developed there. They are all young men, in their prime, and it looks as if Vancouver will make a sweep here this year.

CRICKETERS TO TOUR ENGLAND

The cricket team of the University of Pennsylvania sailed last week for England where matches have been arranged with the principal schools. The tour of the Quaker cricketers will extend over the month of July, and the team is confident that it will be able to make every day a better showing than the former Pennsylvania team that visited the old country.

Pennsylvania won the intercollegiate championship in the east this year, outclassing the teams of Cornell and Harvard. Harvard did not put a team in the first this year and all the games were forfeited.

The Pennsylvanians will play almost every day during the tour, the only lay-off, with the exception of Sundays, being on July 12 and 13, when the team will visit London and watch the annual match between Eton and Harrow.

The schedule for the tour is: June 27, Harrow; June 29, St. Paul's; July 2, Clifton; July 4, Rugby; July 5 and 6, Cheltenham; July 8 and 9, Marlborough; July 10, Halesbury; July 16, Winchester; July 17, Farnham; July 22 and 23, Dublin University; July 24 and 25, Bray, Ireland; July 27, Charterhouse; July 29, Repton; July 30 and 31, Repton.

Permit for Britt and Nelson

San Francisco, June 25.—The board of supervision has granted a permit for the Britt-Nelson contest on the night of July 3.

The Victoria West Intermediate football team have decided not to play at Ladysmith on July First. Their reason is that football is out of season, the weather being too hot for players to turn out and practice.

Lacrosse Players Salaries

Toronto, June 25.—Lacrosse players' salaries are about the same this season as last year. The Torontos are said to be paying \$20 per week, and the Tecumseh pay roll, it is understood, strikes about the same average, though they do say that "Sport" Murtton gets a more liberal allowance. John C. Miller, you remember, wanted Murtton to go to Australia, and "Sport" stayed at home to help out the Indians.

HENLEY REGATTA ENTRIES.

Germans Will Be Well Represented at This Year's Meet.

The entries for Henley Regatta crews and scullers connected with foreign clubs not affiliated to the Amateur Rowing associations closed recently.

Besides the Club Natiqne de Grand, Belgium, who intend to row for the Grand Challenge Cup for eight oars, a German four from Ludwigshafen, on the Rhine, has entered for the Stewards' Challenge Cup for fours; and three German scullers are named for the Diamond Sculls, including Wigels, of the German club, of Stuttgart, three years' amateur sculling champion of Germany, and accounted a good man by all the English professional coaches who take engagements on the continent.

The Belgian crews includes six of the crew that won the "Grand" last year, when they rowed in the colors of the Sport Natiqne de Grand. This is explained by the fact that the two clubs amalgamate for international events.

Leander will put on an eight, four and pair this year. D. C. R. Stuart, the Cambridge Blue, will stroke the eight, and probably the four, and among the other Leander oarsmen will be H. C. Bucknall, the Oxford Blue; and B. C. Johnson, P. T. Tanel and E. W. Powers, of Cambridge.

Unique Baseball Record.

"Deacon" McGuire, who was recently appointed manager of the Boston Americans, has a unique record in baseball, as the following facts and figures will show:

Born, November 18, 1863, at Youngstown, O.

The junior events will likely be pulled off on the first day of the regatta,

Has played professional ball for 25 years.

Was never fined or put out of a game by an umpire.

Is always in good condition, sober and gentlemanly.

Holds world's record for continuous catching—142 straight games with Washington, including double-headers.

Formerly nicknamed "Pinch" because of his timely hitting.

Owms considerable property at Al-bion, Mich.

NOTTINGHAM WINNER OVER ESSEX ELEVEN

Latest Mail Returns of Old Country Cricket Matches Show Some Surprises

Notts defeated Sussex according to the latest old country mail, giving the results of the week's cricket in England. Rain spoiled the pitch, so the play was storky accordingly. The Nottingham bowlers, Wass and Hallam, sent Sussex to cover for only 81 in the first innings, Notts followed, Gunn's 109, and Alletson's 40 bringing their score to 219. Sussex made a desperate effort to retrieve, and in spite of a drizzling rain they pulled up 202.

Luckily for Notts the bad weather cleared up at Brighton, and the ground recovering quickly, play was resumed. For a brief space Sussex seemed to have a chance, but once more John Gunn stepped into the breach, and Notts eventually won by six wickets.

For this decisive victory the Mid-landers have mainly to thank John Gunn, Wass and Hallam, the first-named scoring 131 runs in the match for once out, while Wass captured twelve Sussex wickets and Hallam seven.

Surrey Pulls Through

Despite the weather at Leicester the Surrey-Leicestershire game was brought to a conclusion, and that an exciting one. Though the scores were not big, the batsmen realizing the treacherous nature of the pitch, hit lustily, more rain fell between the two innings, and when Surrey went to bat again, things were not promising. Hayward and Hobbs began carefully, but the latter ought to have been caught by Vivian Crawford off Jays with a score of 4, and the left off cost Leicestershire dear, for subsequently Hobbs lashed out lustily, boundaries coming in all directions.

Hayward followed suit and the hundred was signalled ere he was so back. Then the attack got the upper hand, three men going quickly just before lunch, after which interval Astill, by taking five wickets for only 4 runs, quickly polished off the innings, Leicestershire being set 136 to win.

This number proved to be far too many, as, though Whitehead battled skillfully, Rushby's bowling nonplussed most of the others, eight batsmen actually only scoring 17 runs between them. Score—Surrey 139, 138; Leicestershire, 142, 90.

Warwick's Win

At Edgbaston, the soft state of the pitch handicapped the players, but Warwickshire, who batted first, made runs at a capital pace, Fishwick, especially, "laying on the wood" to good purpose. Thompson's bowling, however, met with rare success towards the end of the innings, and the home side were all out for 219, in reply to which Northampton made a poor innings, Thompson 21, being the only stand, rain interfering. Warwick's second innings was ended with 166, Charlesworth accounting for 53 and 59. Northampton were all dismissed for 136, of which Buswell contributed 50. Scores—Northampton, 124, 136; Warwick, 219, 166.

Lancashire Hard Pressed

A splendidly contested match at Bath ended in a win for Lancashire by two wickets. The visitors had some anxious moments in the second innings, five of their best bats being out for 95, and when the eighth wicket fell 21 were still required. Scores—Somerset, 183, 186; Lancashire, 189, 182 for 8 wickets.

Middlesex and Essex Draw

This game had a most disappointing finish; Essex made two good innings, Perrins 116, and Kane 82 being conspicuous, but Middlesex had scarce commenced their second innings when the rain caused the game to be abandoned, the score being, Essex, 164, 288; Middlesex 278 and 6, no wickets.

Cambridge and Leeds Blank

The South Africans have been distinctly unfortunate in their matches against the Universities. At Oxford play had been limited on the first two days, and impossible on the last, while they met with even worse luck at Cambridge—only thirty-five minutes' cricket and blank altogether after the game being drawn. Scores at Cambridge—South Africa, 201, and 11 for 1 wicket; Cambridge University, 103.

Yorkshire's rosy chance of beating Kent was dissipated, it was decided to abandon the match, the unlucky Yorkshiremen left off with their scores standing at 150 and 65 for 4 wickets to Kent's 78.

Champions Again Triumph

Kent opened the game by a brilliant inning, Harding 73 and Hutchings 52, being the best of a good average. On going in Northamptonshire gave a deplorable display. So helpless were the batsmen against the bowling of Blythe that the first seven wickets fell for 4 runs—two of them extras. The eighth should have gone down at the same total, but Vials was missed by Blythe. Profiting by his escape Vials hit pluckily, and the innings was carried over the luncheon interval, the score in the end reaching 60. Blythe took the ten wickets at a cost of only 3 runs apiece. Following on 194 behind, Northamptonshire fared even worse than before, the whole side being dismissed in an hour and a quarter for the miserable total of 39. There was no excuse for the feeble resistance offered in the first inning, but when the team went in a second time the wicket was apparently faster and the ball came off the ground at a great pace. Score—Kent 254, Northampton 60-39.

M. C., and Leicester Draw

The rain that disorganized cricket all over the country caused some unexpected plays at Lords, and some fearless batting by the visitors at the close of the match made the event doubtful to the very end. Scores—M.C.C., 371, 89; Leicestershire, 239, 201.

Heavy rains upset the cricket schedule throughout the kingdom. The South Africa vs. Oxford university being drawn, the Oxford score being 113 and 36 for 2 wickets; the African-ers 187.

The Notts vs. Yorkshire game was also called Yorkshire, being 47 for 1 wicket.

Rain caused the Surrey vs. Cambridge university match to be drawn after the county had declared their inning 321 for 8 wickets. The varsity being dismissed for 152 in the first inning and having lost 6 wickets for only 49 runs in the second. The soft pitch making the varsity's task hopeless.

The Worcester game with Hampshire was drawn owing to rain, after Hampshire winning the toss had obtained 88 runs for the loss of six wickets before the end came. Rowell and Jephson batted well, but the cricket was uneventful.

At Spoken—Osbome's winniness and miserable fielding lost the game to Seattle. Spokane found Rush for a home run, two doubles and a single in the last three innings. Score—R. I. E., 21; Seattle, 21.

Seattle vs. Spokane, 5 8 4; Batteries—Rush and Stanley; Osbome, Erickson and Swidells.

On the Waterfront

DESERTIONS FROM CRUISER MONMOUTH

Sailors Swam Ashore from Warship Anchored in Esquimalt Harbor

SHINANO MARU REACHES PORT

Japanese Liner Reached Quarantine Last Night—Tosa Maru Sails for the Far East

H. M. S. Monmouth left yesterday to return to Yokohama without from 20 to 30 of her men who deserted while the cruiser lay at anchor in Esquimalt harbor. Had general leave been given, it is stated, the desertions would have been wholesale. Only special leave was given, mostly to petty officers and badge men, and as it was several of these made their escape. Sixteen men deserted by jumping overboard and swimming from the vessel to the shores of Esquimalt harbor. Some who attempted to escape this way were picked up by boats after a struggle and taken on board, others slipped down lines quietly and swam away unmolested. Two escaped by swimming on Saturday, two on Sunday night and on Monday night while many of the officers were on shore, twelve swam to the land. On Monday night a number of seamen were permitted ashore in the naval yard, the gates being carefully locked, for a dance held at the salt loft. Two of these took to their heels and swam away, and a score of petty officers and officers started in pursuit. Finally sealing the wall of the naval yard.

Yesterday morning the most desperate attempt to desert on the part of several seamen took place. A naval guard of honor was placed on the wharf in the yard of which H. M. S. Shearwater is lying, and while the remainder stood at attention to salute the Japanese prince, two sailors slipped quietly away and hid under the wharf. The prince was formally saluted and went on board a steam launch. Then officers of the Monmouth started out in search, locating the two deserters under the wharf. They were dragged out, shackled and sent back on board under guard. Meanwhile six others took to their heels, and a score of petty officers and officers started in pursuit. The runaway sailors passed some members of the Fifth regiment band and breathlessly enquired the way to the gate. On the six were taken. The wages of the bluejackets and stokers of the Monmouth range from 15 to 25, sixty cents being accounted a good day's pay, and when the sailormen heard that laborers were being paid 8 and 10 shillings a day for their hire here, and Chinamen got as much as eight shillings, they were eager to get away to join the workers ashore. The majority, however, were held secure on board and go back to Japan and China where there is no such incentive to desert.

MARVIN AT HALIFAX.

Victoria Sealing Schooner Reaches Eastern Port from Cape Horn.

The sealing schooner E. B. Marvin, owned by the Victoria Sealing Company, and operated on the Cape Horn sealing grounds, reached Halifax on Monday from the south seas to outfit for another season off Cape Horn and the Falkland Islands. The E. B. Marvin took 1920 skins during the past season, her catch being shipped from Port Stanley and Montevideo. The Beatrice L. Corkam, Capt. Le Blanc, reached Halifax June 12, 44 days from Montevideo. Several others of the Cape Horn sealing fleet which numbered six vessels, all owned or partly owned in Victoria, are on their way to Halifax to outfit for another trip in southern waters. The schooner Pascawha, recently purchased by Capt. J. W. Peppett, will sail south with the fleet when leaving and after her season on the southern sealing grounds will come to Victoria to be added to the local fleet.

Capt. Don Macaulay of the sealing schooner Otto returned from the coast yesterday on board the steamer Otter without being successful in securing Indian hunters and it is probable that the Otto will not be despatched. The schooner Libbie, which returned to port with her tank leaking, has started again for the island coast to pick up her Indian hunters.

SUVERIC ON SOUND

Weir Liner Arrives at Seattle from North China via Acapulco

The steamer Suveric of the Weir fleet which is under charter to Waterhouse & Co has arrived at Seattle from North China via Acapulco and will load again for North China ports. The Suveric loaded a cargo of 8000 tons of Japanese coal at Mojito for Acapulco, Mexico. This is the first shipment of coal from Japan taken to the Mexican port, and was consigned to the Pacific Mail Steamship Co. According to the officers of the Suveric the Pacific Mail will import all their coal from the Orient to Acapulco if what was brought over on the Suveric proves acceptable. The ship is manned by Chinamen with the exception of five white men. These men allege unfair treatment from the captain in the matter of accommodations food, treatment and in

GIN PILLS

CURE

Kidney Troubles

other ways. They stated that they would appeal to the British consul today and have him investigate their case.

On board the vessel is a shipment of oil and grease which was sent back from Vancouver. This was sent on the Suveric from Seattle, but was refused there and has made the long journey back.

PRESIDENT OUT TODAY

Leaves This Morning for San Francisco on Her First Trip South

The steamer President of the Pacific Coast Steamship company left Seattle last night and will sail from this port this morning for San Francisco. The big ship was to have got away for San Francisco tomorrow and the steamer Sonoma was to have left for San Francisco Tuesday. The schedule was changed as the amount of freight offering for the Sonoma was more than could be put on board in so short a time. As a result the President which was at the wharf was ordered to load with the San Francisco cargo and the sailing of the Sonoma postponed until next Friday morning, when she will get away.

This is the first trip of the vessel from Victoria to San Francisco. The President which is the first commercial vessel with wireless telegraph apparatus on this coast, is a fast steamer capable of 17 knots an hour. She is a single screw ship, 516 feet 9 in. in length, 48 feet beam and 29 feet 2 1/2 inches depth of hold. She has accommodations for 234 first class, 134 second class, and she carries 107 as crew.

STRUCK A ROCK.

The Steamer Queen City Repaired Yesterday at Esquimalt—Sailed on Time.

The steamer Queen City, which struck a rock Sunday at Lund, when on her way to Victoria from Rivers Inlet and coast ports, sailed for Rivers Inlet via the usual ports of the north-east coast of the island again this morning at an early hour after being repaired yesterday at the ways of the B. C. Marine Railway company. The damage to the steamer was not great. The Queen City had a fair complement of passengers including a number of Chinese for the canneries at Rivers Inlet. She loaded about twenty tons of general supplies, mostly groceries, at this port for logging camps.

NEW QUARANTINE STATION.

Dr. Montizambert to Locate Site for Depot at Kinnaham Islands.

Within the next few days the Dominion government quarantine steamer, Madge, with Dr. Montizambert, number 10 of the Dominion quarantine; Dr. W. Watt, superintendent for B. C., and Ralph Smith, M. P., on board is expected to leave for Prince Rupert and vicinity. The quarantine station to be established in view of the proposed development of Prince Rupert as a shipping port. The northern station is to be situated on the Kinnaham Islands about four miles distant from Prince Rupert. The plans for the buildings and equipment will not be decided upon until the business of the station. Ultimately it is the intention of the Dominion government to build an extensive depot at Prince Rupert in view of the contemplated establishment of steamship services in connection with the Grand Trunk Pacific railway.

NEW STEAMER.

Seward Launched at Seattle for Northwestern Steamship Company.

The steamer Seward, a new vessel built by the Moran company for the Northwestern Steamship company, whose steamer Northwestern is being repaired in the dry dock at Esquimalt by the B. C. Marine Railway company, was launched yesterday afternoon at Seattle. The Seward is a steel steamship. She was built expressly for the Alaska trade. According to Secretary Tremaine, the ship will be in commission about the middle of August. If she is ready in time, the vessel will be sent to Nome this year on her maiden voyage. The Seward was built to replace the steamer Oregon, wrecked off Cape Hinchinbrook last fall. During the winter months the Seward will be on the Valdez and Seward run.

COAL FOR NOME.

Steamer Boveric Chartered to Carry Cargo from Ladysmith to Arctic.

The British steamer Boveric, of the Weir line has been chartered by the Northwestern Steamship Company to take a full cargo of sacked coal from Nanaimo to Cape Nome. The Boveric proceeded yesterday from Seattle to the Vancouver Island coal port. She has been on the Sound run for some time and was to have carried a cargo of flour to North China ports, but this freight will be transferred to the Suveric, which reached Seattle Monday. It is expected that the Boveric will take 6,000 tons of coal at Nanaimo.

FROM WHALING STATIONS

Steamer Otter Returned From Kyuquot and Sechart

With 313 barrels of whale oil and 220 tons of fertilizer from the Sechart whaling station the steamer Otter returned yesterday from Kyuquot and Sechart after carrying a full cargo of coal and building material to the two whaling depots on the island coast. The Otter brought news that the hunters continue successfully off Sechart, although of late they have had to go further to sea to secure whales. Before 10 o'clock on Monday the whalers returned with a large sulphur-bottom and a humpback. At Kyuquot the new whaling station at Narrow Cut creek has been almost completed and it is expected the steamer St. Lawrence will be sent there the first week in July. It is expected that better catches will be made at Kyuquot. Capt. Balcom, manager of the whaling company, will leave in a few days for Nanaimo, to

commence operations at the third of the company's stations, to be built at Le Page Creek, near Nanaimo.

The Otter had a rough trip to the island coast, carrying a deckload of large blubber tanks manufactured by the Victoria Machinery Dept. for the Narrow Cut Creek whaling station on her deck. On her southbound trip she sighted two sealing schooners, one at Uclulet, the other at Dodge's Cove and neither had yet taken their Indian crews on board.

The Otter leaves again this morning, taking a cargo on general merchandise to the Ladysmith and Vancouver, ex the Blue Funnel steamer Bellerophon. Returning she will load a cargo of coal at Ladysmith.

TOSA MARU SAILS

Shinano Maru Arrives from Orient—Movements of Other Liners

The steamer Tosa Maru of the Nippon Yusen Kaisha sailed yesterday soon after noon from the outer dock for the Orient, carrying a full cargo of general freight including flour, machinery, cotton, tobacco, and general merchandise. Steamer Shinano Maru of this line reached the Head quarantine station last night and will dock this morning, from the far-eastern ports, with 335 tons of general freight to land at this port, and 275 steerage passengers, twenty of whom are Chinese, remained Japanese. The passengers of Shinano, which left Japan two days prior to the sailing of the Empress of Japan which arrived Monday include, Dr. Pearl, a druggist, of Kobe, bound to Texas, Mr. and Mrs. Wilber, Mr. Gaurier, Mr. Spencer, C. T. Wang, Mr. Davidson James, Wang Cheng Ting, Y. Hashimoto, Miss Johnson, Kato, T. Miyayana, Y. Nagahara, K. Nakamura, S. Okajima, J. E. Williams and children, R. Davidson, Miss D. E. Davis, Mr. S. Churing, Mr. and Mrs. Yeager, and Dr. Owen Paget, in cabin; K. Morimoto, S. Nishimura, Miss Y. Kajiro, K. Mishiashi, T. Oira, Mrs. T. Matsumoto, Miss K. Nishii, Y. Takeuchi, Mr. McCarthy, T. Ishii, T. Sadami, and A. Hasegawa, in intermediate.

The steamer Aki Maru of this line left Hong Kong yesterday and the steamer Jango Maru leaves Yokohama today for Victoria. The Kaga Maru, also of this line, which carried General Kuroki and his staff back to Japan due at Yokohama today.

The steamer Tremont of the Boston Steamship Company, left Yokohama on Friday last for this port, from Manila via Japanese ports, and is due here on July 4. The big Boston liner is bringing a cargo including hemp from the Philippines, new tea from Shizuoka, at which port she made her ritual call on the present voyage and other cargo.

The Ningchow of the China Mutual line, running in conjunction with the Blue Funnel vessels, leaves Yokohama tomorrow to complete her voyage to this port from Liverpool. The Ningchow has over 1,000 tons of general cargo from the United Kingdom for this port.

The steamer Montague of the C. P. R. is to sail on her southward trip to the Orient tomorrow, carrying a large cargo.

FIFTY THOUSAND TONS

Largest Vessel on Any Ocean for the Hamburg-American Line

A Kiel dispatch says the Hamburg-American line, through its managing director, Herr Ballin, last week gave an order to the Harlan-Wolff firm of Belfast for a 50,000 ton steamship. The ship will be the largest vessel afloat, surpassing even the big Cunard liners Lusitania and Mauritania.

The North German Lloyd Steamship company has ordered a new large passenger steamer to be built in the yards of the Vulcan company at Stettin for the line between Bremen and New York. This steamer is to be named George Washington, and will be 720 feet in length, 78 feet beam and 54 feet in depth, with a gross tonnage of 27,000 registered tons, a draft of 33 feet and a displacement of 35,000 tons. Her speed is to be eighteen knots and her engines will indicate 20,000 horsepower. This steamer is intended to meet the demand of those with whom speed is a secondary consideration, and who prefer comfort and room to record trips. She will enter the service in the year 1909.

The North German Lloyd also have another large passenger steamer for the New York trade under construction with the shipbuilding firm of John C. Tecklenburg in Geestemunde, near Bremerhaven, of 17,000 gross registered tons and 14,000 indicated horsepower, a displacement of 25,000 tons, a draft of 31 feet, beam 68 feet, depth 42 feet, speed 17 knots. This steamer will receive the name Prinz Friedrich Wilhelm, and is expected to enter the service of the company between Bremen and New York in the year 1908.

THE WRECKERS

Japanese Divers Fishing Cargo From Sunken Liner Dakota

Late advices from Yokohama state that Yamishima, a Japanese salvage agent, has been successful in salvaging a large quantity of general freight from the cargo of the Dakota. In addition to the cargo salvaged immediately following the disaster, Yamishima has continued to work on the vessel, using divers, and reports that three lots of freight have been recovered and sold. The third lot recovered by Yamishima consisted of 800 bales of raw cotton, 1,400 pieces of lead and 1,400 bags of flour, valued in all at 180,000 yen. Although the vessel has broken and sunk into deeper water the work is still carried on with divers when the weather will permit. The continued roughness of the past few weeks has prevented the salvaging work and it is believed that but little more will be recovered.

OHIO EN ROUTE SOUTH

Will Probably Come to Esquimalt to Be Placed in Dry Dock

Advices from Cape Nome state that the damaged steamer Ohio of the White Star line will leave the northern port for the south on July 5. Capt. Brown, her master wired to the owners at Seattle that probably three weeks will be required to effect the necessary repairs after her arrival. The work of making temporary repairs to the bow to allow her to make

the voyage south was in progress when the message was sent south on Monday, and was progressing satisfactorily, although the workmen were greatly handicapped by not having proper apparatus. Upon the arrival of the Ohio, a survey will be held and tenders called for the necessary repairs.

SUBSIDY DISCONTINUED

Whalers in Japanese Waters With Norwegian Gunners Will Lose Aid

The Japanese government has decided to withdraw the subsidy given to Japanese whaling vessels which carry foreigners on board, according to advices received by mail. When the budget for the present year was compiled by the government of Nippon, the number of whaling steamers which were entitled to the whaling encouragement bounty was estimated at only about ten. Since then, according to the vernacular press, the fishing industry of the country has shown a marked development, and whalers, which at present at least 28 whalers, which are qualified to receive the bounty and the estimate of the number of whalers for the county has proved short so that the department of Agriculture and commerce, in order to prevent the funds from falling short, have decided not to grant subsidies to those vessels which carry foreigners as the chief whalingmen. Most of the whalers carry Norwegians, as chief whalers are now endeavoring to induce the department to reconsider its decision.

DOMINION DAY REGATTA

Cowichan Bay Will Be Scene of Some Stirring Sport

The energetic committee in charge of the regatta and water carnival at Cowichan bay on Dominion day July 1, have drawn up a very attractive programme of events which number eighteen in all and are of such a nature that the regatta should prove highly interesting. The services of the Nanaimo Silver Cornet band have been secured for the day which will enliven the races, while the prize list is an exception to the good one. An excursion has been arranged from this city by the popular excursion steamer City of Nanaimo, which will sail from the Belleville Street dock at 9 a.m. and returning will arrive about 9.30 p.m. more enjoyable outing cannot be imagined and no doubt a large number will avail themselves of the trip through the picturesque Gulf Islands.

CASCADE WITH BUOYS

Steamer Taking Quadra's Place Starts With More Aids to Navigation

The steamer Cascade, which has been chartered by the marine department, left port yesterday morning with a cargo of buoys and beacons to replace several aids in nearby waters. She took among other aids, a spar buoy for Antevoda rock, in Malaspina straits, a spar buoy for the rock in Trincomali channel, iron rods for use on a boat slip to be erected at Merry Island lighthouse, stores for pier island and a full load of other aids to navigation. The Cascade and the Quadra are being used while the Quadra remains at Prince Rupert and vicinity.

THE SEIZED SEALER

Officials in the Dark as to Method of Proceeding Against Vessel

It is improbable that the trial of the seized sealing schooner Carlotia G. Cox, now lying in James Bay, will take place until the autumn. The Dominion government is uncertain how to proceed, and is addressing many questions to the Customs and Excise officials in this regard. The collector of customs, on the other hand, is looking to Ottawa for the method of procedure. Reference to the naval officers at Esquimalt has failed to throw light on the matter. The officers there are in the dark, and they at the customs officials to ascertain what was done in previous cases of seizure as the records have long been sent from Esquimalt to Whitehall. Meanwhile the United States steamer Rush, which seized the sealer, is being repaired at Seattle, and the schooner of which her owners are deprived lies swinging at her anchor in James Bay.

H. M. S. Shearwater, the British vessel to take part in the sealing patrol in which five United States revenue cutters will be engaged, is said to have left Esquimalt for the north on July 15. This season there will be one revenue cutter for every two sealing schooners from this port. The sealing fleet will number thirteen schooners, all told, and there will be six patrol vessels.

SMUGGLING JAPANESE WOMEN

Man Deported for Landing Stowaways in Boxes Jumps from Onafra

Keijiro Takatori, the Japanese deported by the local immigration authorities by the steamer Onafra for attempting to land a number of Japanese women stowaways, here from the Blue Funnel liner Onafra in packing under stowaway coverboard from the Onafra on arrival at Yokohama, in an attempt to escape punishment in Japan. The Japanese women, who, as will be remembered was ordered into quarantine, were also deported. When the Onafra arrived at Yokohama the Japanese water police boarded the vessel. The Japan Gazette, Yokohama, telling of the arrival of the deported ones from Victoria at the Japanese port says: The women confess that they had secretly embarked on the Onafra in Yokohama on the night of April 8, taking a sampan from the English harbor. They were then conducted to a hiding place on board steamer Onafra. The Onafra was named Keijiro Takatori and a certain Haggawa. Prior to their embarkation all arrangements had been made with the intended importer of these girls at Vancouver, Sankitchei Kawaguchi by name, the name of one of the Yokohama women. The steamer left Yokohama on April 9 without incident, and shortly after her arrival at Victoria a case of smallpox occurred among the Chinese passengers, and as the vessel was thoroughly disinfected in that port the women stowaways were confined in a nailed box, apprehending a search for such irregular imports. The box was, however, smoked with sulphur in the contents, being almost in a dying condition, cried for help. Then their plot came to light. Takahashi, one of the cooks concerned, is an ex-convict. Some time ago he was arrested for having contemplated murder and also saving attempted to stowaway some other girls of ill-fame. He has been under sentence for the same offence. The man jumped overboard the Onafra to take flight, but was finally sent to the water police station, having been picked up by a launch of Messrs. Martin & Co. The other cook is still at large.

GILLETTE'S

HIGH GRADE

CREAM TARTAR

ABSOLUTELY PURE.

SOLD IN PACKAGES AND CANS. Same Price as the cheap adulterated kinds.

E. W. GILLETTE COMPANY LIMITED TORONTO, ONT.

MARINE NOTES

On her return from the north the steamer Camosun will be hauled out on the ways to be cleaned and painted, and her sailing date has not been fixed. Due notice will be given.

The tug Lorne will arrive in Royal Roads this morning with the British bark Matternhorn, lumber laden, from Hastings' mills, for South Africa, to ship part crew here.

ACTIVITY IN BOUNDARY

Smelters Treating More Ore Than for Some Time Past

Today more ore is being shipped from the mines of the Boundary, and more ore is being treated at the district smelters, than ever before in the history of Boundary. Not only that, but even this output will soon be increased, as two furnaces at the Boundary are being put in commission as soon as it can be done, the furnaces themselves being now ready for operation, making fourteen in all at the three Boundary Smelting Works, says the Phoenix Post.

Monday morning Manager McAllister, of the British Columbia Copper company, blew in the third large furnace of that plant, and the full battery of three have been in commission this week, doing the best of work, and eating up about 650 tons of ore daily, or in that neighborhood, that being the average that the furnaces will reduce, according to recent records. This is the first time that three furnaces have been in blast at this plant, and it is the expectation to run at that rate in the future.

At the Granby smelter the seventh furnace was blown in on Monday also, with the intention of having up an eighth furnace of that battery in blast as soon as the men could be had. With the two now in operation at the Dominion Copper company's smelter, this makes twelve blast furnaces treating ores of the Boundary mines in this section, and they would average well up to 5,000 tons of ore treated each 24 hours, or at the rate of about 150,000 tons of ore monthly.

When the third furnace is in blast at the Dominion Copper company's and the eight furnaces at the Granby smelter, the entire fourteen furnaces should be able to handle up to 6,000 tons of ore per day, or about 180,000 tons per month.

It is interesting to note what the smelting of 6,000 tons of Boundary ore daily would amount to in pounds of copper fine. While it is not probable that the entire battery at any one of the smelters could handle up to 6,000 tons of ore per day, or about 180,000 tons per month, it would make a large showing in the copper production. Figuring on the basis of say 100 pounds of copper recovered per ton, 6,000 tons treated daily would give 150,000 pounds of copper each 24 hours, or 4,500,000 pounds per month, or over 50,000,000 pounds per annum.

Men have been coming in to the mines of the Boundary, and the increased wage paid is becoming better known on the outside. There are still positions for quite a number of good machine men, however, at most of the properties.

A block of shares of the Gold Bug Mining company has been placed in Winnipeg at a satisfactory figure, and it is understood that work will be resumed on that well known high grade mine very shortly. It speaks well for this mine that none of the holders of shares seem disposed to get rid of them.

Mining in Cariboo

During the last few weeks a branch tunnel has been run from the main tunnel at Windham to tap the channel down stream from and at a lower level than the main tunnel, the face of which was lost by a run of slum last winter. In the second week of June when the face of the branch tunnel was showing a foot of gravel, a rush of water accompanied by pressure sufficient to break the roof lagging compelled a cessation of work at that point. It was said that about \$25 was panned from the small amount of gravel secured and that a good prospect was shown for the future. As the face of the branch tunnel was encountered at the face.

W. C. Fry, of Vancouver, who sold out his Stout's Gulch hydraulic last summer, is again in Cariboo, and while in the district will do some work on the scheelite property at Harderamble Creek. The market for tungsten ores is becoming stable and the demand is increasing.

DON'T DIE AT 45

Cure the Indigestion Which Is So Liable to Lead to Apoplexy

People who suffer with headache, dizziness, palpitation, bad taste in the mouth, drowsiness, distress after eating, and any of the other distressing results of indigestion, are in serious danger. Their digestive organs cannot care for the food properly and hence the coats of the blood vessels in the brain get little nourishment, become brittle, and finally yield to the fierce blood pressure and one is then said to have a "stroke," or apoplexy. In all diseases of digestion and nutrition a prescription called Mi-o-na has proven itself of great value. It is relied upon today as a certainty to relieve the worst troubles of indigestion and make a complete cure. That Mi-o-na will cure the worst forms of stomach trouble, cancer excepted, and give quick relief in indigestion is proven by the guarantee D. E. Campbell gives with every 50 cent box to refund the money unless Mi-o-na cures. A guarantee like this must inspire confidence.

NOTICE TO CONTRACTORS

COURT HOUSE—VANCOUVER
SEALED TENDERS, superscribed "Tender for Court House, Vancouver," will be received by the Honorable the Chief Commissioner of Lands and Works at his office, Victoria, up to noon of Monday, the 12th day of July, 1907, for the erection and completion of a Court House in the City of Vancouver.

Drawings, specifications, conditions of tendering and contract may be seen at the office of the Public Works Engineer, Victoria, and at the office of Messrs. Dalton and Eveleigh, architects, Vancouver, on and after the 24th day of June, 1907.

Each tender must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank in Canada, made payable to the order of the Hon. the Chief Commissioner of Lands and Works, in the sum of five per cent. (5 per cent.) of the amount of the tender, which sum will be forfeited if the party tendering declines to enter into a contract when called upon to do so, or fails to complete the work contracted for.

The cheques or certificates of deposit of unsuccessful tenders will be returned to them immediately after the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelope provided. The lowest or any tender not necessarily accepted.

F. C. GAMBLE,
Public Works Engineer.
Lands and Works Department,
Victoria, B.C., 19th June, 1907.

ARBITRATOR (IT) IN VICTORIA WEST CASE

Dennis R. Harris Will Pass Upon the Street Line Trouble

The Victoria West arbitration will commence tomorrow afternoon in the city hall before Dennis R. Harris, who has been appointed arbitrator. Mr. Harris has been asked to state a case regarding the city's liability for compensation of those who will be compelled to move their houses fences, etc., as a result of their lots encroaching on the street line as defined in the Nagle map. It will then be submitted to a judge of the supreme court who will pronounce as to whether the city is liable or not.

The difficulties of the matter have been greatly exaggerated, it is stated by the city officials. In all there are but four places where buildings encroach upon the roadway. The rest of the changes which will have to be made merely effect fences.

The cost of the changes, if it has to be met by the city, will be levied in all probability upon the proprietors in the section benefited though a number of residents believe that the expense, should be borne by the city as a whole.

Two of the buildings which will have to be moved encroach on roadways which with the contemplated opening up of the Indian reserve, should be main thoroughfares.

False Alarm.

Two false alarms yesterday and two on Saturday shows that the season is not alone prolific of the fool that rocks the boat. Fire Chief Watson points out the danger which the practice entails in the event of a real fire breaking out. The police are looking for the offenders.

Ladies' Musical Club.

Members of the Ladies' Musical club are rounded of the adjourned annual meeting of the club to be held in Waitt's music hall on Thursday next at 11 a. m. All member both active and associate are specially requested to attend and discuss plans for the future work of the club to insure its continued success.

Canadian Club Luncheon.

The fifth luncheon of the Canadian club will take place at the Poodle Dog restaurant tomorrow at 1 o'clock. The speaker and guest of the day will be W. P. Archibald, Dominion Parole Officer, who will speak on "Modern Treatment of the criminal."

FOR SALE—A quantity of shares in the

VICTORIA REAL ESTATE

B.C. LAND & INVESTMENT AGENCY

40 Government Street

LIMITED

Victoria, B. C.

Alberni Townsite

A number of specially selected lots, also acreage close in.

SPECIAL—Fruit Farm, close to Victoria, in excellent order; nice dwelling and outhouses, with every convenience, will be sold together with furniture, livestock and implements. A splendid opportunity, as the owner has satisfactory reasons for selling, and invites inspection.

\$900—Lot 60x168, beautifully situated; only 15 minutes from Victoria Post Office.

5 ACRES—Practically all cleared and in hay, close to the city; only \$2,100.

YATES STREET—Full sized lot, close in, for \$3,500; a good speculation.

JOHNSON STREET—Full sized lot, close in and nicely situated, for \$3,000.

DALLAS ROAD—\$3,300, Modern Bungalow, 1 1-2 lots, all frontage; bargain.

90 Acres, 16 cultivated, house, barns, stables, etc., fruit trees and small fruits of all descriptions; running stream, handy to railway and convenient to city; only \$5,250, including eleven head stock and buggy.

Small pieces of acreage fronting on Quamichan Lake; good fruit land; splendid fishing and shooting; close to station; \$60 per acre up.

1 lot and 2 houses on a corner in James Bay; 10 minutes from post-office; \$3,150.

DALLAS ROAD—Handsome dwelling situate on the best part of Dallas Road, will be sold at a bargain if taken immediately.

GORDON HEAD—A number of desirable fruit farms in this famous fruit-growing district. Call for list.

FARMS—A long list of large and small farms. Call for printed list.

TEXADA ISLAND—2230 acres of timber and mineral lands, also valuable for agricultural purposes, only \$5 per acre.

\$4,500—Large modern dwelling in James Bay, large piece of ground; cheap in order to wind up an estate.

\$4,000—Modern nine-roomed dwelling, corner lot (large), in James Bay; cheap in order to wind up an estate.

11 ACRES—Handy to Victoria, on a good road; good 6 roomed cottage and stable, first class poultry ranch. Price \$2,500.

3 Lots, James Bay, on 60 foot street, facing south, close to sea; size 31x155 each; all cultivated; \$1,100 for all; terms.

Full Sized lot and two houses on best part of Pandora street; \$3,150. This is cheap.

Bargains to Boast About

BURNSIDE ROAD—Three acres, all cleared, fenced and under cultivation; good view. Price.....\$4,000

CHOICE BUILDING SITE FOR AN APARTMENT HOUSE

As a business proposition, an up-to-date Apartment House pays handsome profits. In Victoria the absence of such a house is generally remarked and at the same time regretted by the numerous Eastern newcomers. I have the exclusive sale of

FIVE CHOICE LOTS

Centrally situated, within five minutes walk of Post Office, and a like distance from Beacon Hill Park, where values are steadily increasing. The position cannot be equalled, and commands a clear view of mountains and sea. This is indeed the ideal location for a select apartment house.

Price \$7,000.00 Only

NO. —

A BY-LAW

To authorize the Sale of a Portion of the Driving Park not required for Corporate Purposes.—

The Municipal Council of the Corporation of the City of Victoria enacts as follows:—

1. All that piece or parcel of land situate and being in Victoria District (now Oak Bay Municipality) and being a portion of Subdivision eleven of Section 28, Victoria District aforesaid purchased by the Corporation from the Bowdler Park Company, Limited, and which is more particularly described in a map or plan thereof deposited in the office of the City Engineer and numbered 131 may be sold or disposed of by the Council at such times and upon such terms and conditions in all things as the Council may from time to time by resolution determine.

2. It shall be lawful for the Mayor upon the passing of any resolution of the Council sanctioning the terms of sale to execute, to the purchaser, or purchasers, such contract, or contracts, as he may be advised is or are proper for effectuating any sale or sales under the provisions of this By-law; and upon payment of the consideration money upon any sale, to the City Treasurer, to execute and cause the Corporate seal to be affixed to a conveyance of the property sold and any such conveyance when executed, shall effectually vest the lands granted thereby in the purchaser for an estate in fee simple free from all incumbrances, but no covenant for the same shall be given by or on behalf of the Corporation.

3. All moneys received by the Corporation from the sale of the said described piece of land, or any portion thereof, shall be paid into and form part of the general revenues of the City.

4. This By-law shall before the final passing thereof, receive the assent of the electors of the said Corporation in the manner provided for in the Municipal Clauses Act and shall take effect on the day after the final passing thereof by the Council of the said Corporation.

5. This By-law may, for all purposes be cited as "The Sale of Lands Authorization By-Law (No. 1), 1907."

Passed the Municipal Council the 17th day of June, 1907.

NOTICE

Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Public Market Building, Cormorant Street, in Room No. 7, on Wednesday the 27th day of July, 1907; that the poll will be kept open for the purpose of receiving the vote of the electors of the said Corporation, from 9 a. m. to 7 p. m., and that William W. Northcott has been appointed the Returning Officer of the said vote.

WELLINGTON J. DOWLER, C.M.C.

City Clerk's Office, Victoria, B. C., June 19th, 1907.

NO. —

A BY-LAW

To authorize the Sale of the Eastern portion of the James Bay Mud Flats, not required for Corporate purposes.—

The Municipal Council of the Corporation of the City of Victoria enacts as follows:—

1. All that piece or parcel of land situate in the City of Victoria, and being all that portion of the James Bay Mud Flats, the property of the Corporation as is situate to the Eastward of the continuation of Douglas street and is more particularly described in the map or plan deposited in the office of the City Engineer and numbered 125 may be sold or disposed of by the Council at such times, and upon such terms and conditions in all things as the Council may from time to time by resolution determine.

2. It shall be lawful for the Mayor, after the passing of any resolution of the Council sanctioning the terms of sale, to execute, to the purchaser such contract as he may be advised is proper for effectuating any sale under the provisions of this By-law; and upon payment of the consideration money upon any sale, to the City Treasurer, to execute and cause the Corporate seal to be affixed to a conveyance of the property sold and any such conveyance when executed, shall effectually vest the lands granted thereby in the purchaser for an estate in fee simple free from all incumbrances, but no covenant for the same shall be given by or on behalf of the Corporation.

3. All moneys received by the Corporation from the sale of the said described piece of land, or any portion thereof, shall be paid into and form part of the general revenues of the City.

4. This By-law shall before the final passing thereof, receive the assent of the electors of the said Corporation in the manner provided for in the Municipal Clauses Act and shall take effect on the day after the final passing thereof by the Council of the said Corporation.

5. This By-law may, for all purposes be cited as "The Sale of Lands Authorization By-Law (No. 1), 1907."

Passed the Municipal Council the 17th day of June, 1907.

NOTICE

Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Public Market Building, Cormorant Street, in Room No. 7, on Wednesday the 27th day of July, 1907; that the poll will be kept open for the purpose of receiving the vote of the electors of the said Corporation, from 9 a. m. to 7 p. m., and that William W. Northcott has been appointed the Returning Officer of the said vote.

WELLINGTON J. DOWLER, C.M.C.

City Clerk's Office, Victoria, B. C., June 19th, 1907.

A BY-LAW

To enable the Borrowing of a Further Sum of \$50,000. Secured upon the Frontage Rents or Taxes and Sewer Connection Rents with the Guarantee of the City of Victoria.

Whereas it is intended to borrow upon the security of the frontage rents or taxes

and sewer connection rentals imposed by the Sewers By-Law, 1902 (No. 40), the moneys so intended to be borrowed, in the extension of the sewers within the City of Victoria.

And whereas it is proposed to give the guarantee of the Corporation for securing the moneys so intended to be borrowed.

And whereas the said "Sewers By-Law, 1902" was validated by Section 20 of Chapter 42 of the Statutes of 1903 in so far as it relates to the moneys and sewer connection rentals were thereby assessed and levied upon the owners of land and buildings, and power was given by the said "Sewers By-Law, 1902" to rectify the assessment and levy made by the said rectifying By-Law upon occupiers of land and buildings, and such assessments and levies upon said occupiers were accordingly revoked by the "Sewers By-Law, 1902, Amendment By-Law, 1904" (Numbered 424).

And whereas the amount of the said frontage rents or taxes and sewer connection rentals, chargeable for the year 1905 is estimated at \$17,000, and sums aggregating \$20,000 have been already raised upon the security of the moneys under the provisions of the Sewer Loan Guarantee By-Law, 1902" (Numbered 402) and the "Sewer Loan Guarantee By-Law, 1903" (Numbered 450).

And whereas the moneys intended to be borrowed pursuant to this By-Law will be primarily charged and secured upon the frontage rents or taxes and sewer connection rentals assessed and levied and to be collected annually under the authority of the said "Sewers By-Law, 1902" now unnumbered amounting to \$3,652.

And whereas the amount required to be collected annually from the said frontage rents or taxes and sewer connection rentals to pay the interest upon the said debt aggregating \$20,000 and to repay the said additional debt by sinking fund is \$2,328, making together the annual sum of \$16,250, and it is estimated that there will not be any deficiency.

And whereas it is proposed to borrow the said sum of \$50,000 upon debentures as hereinafter appearing.

And whereas, by the said rectified By-Law No. 400, the said frontage rents or taxes and sewer connection rentals which received are directed to be carried to a joint fund entitled "The Sewer Rental and Sewer Tax Fund," and are to be expended in the extension of the sewerage system of the city and the construction and maintenance of the same, and in making provision for the payment of principal, interest and sinking fund on the moneys so borrowed on the security of the same, in such manner and at such time or times as the Municipal Council shall from time to time determine.

And it is desired by this By-Law to give effect to such provisions:

Therefore the Municipal Council of the Corporation of the City of Victoria enacts as follows:

1. The moneys raised under this By-Law shall be expended in the construction of sewers and for the purposes generally mentioned in this By-Law, and for no other purpose.

2. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the security, primarily, of the said frontage rents or taxes and sewer connection rentals and by way of guarantee upon the credit of the said Corporation by way of the debentures hereinafter mentioned, from any person or persons, or body or bodies corporate, who may be willing to advance the same as a loan, a sum of money not exceeding in the whole sum of \$50,000, currency or sterling money (at the rate of 136/3 pence to the one pound sterling) and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation, for the purpose and with the object hereinafter referred to. The said guarantee of the City to be contained in the said debentures shall be in the following terms, or as near thereto as may be:

"The payment of the principal moneys and interest thereon under this debenture at the respective dates when the same fall due under the terms of this debenture, is hereby guaranteed by the Corporation of the City of Victoria."

3. It shall be lawful for the said Mayor to cause any number of debentures to be made, executed and issued for such sums as may be required, not exceeding, however, the sum of \$50,000, either in currency or sterling money (at the rate of 136/3 pence to the one pound sterling) and each of the said debentures being of the amount of \$50,000 or its sterling equivalent at the rate aforesaid, and all such debentures shall be sealed with the seal of the said Corporation and signed by the Mayor thereof.

4. The said debentures shall bear date of the day after the final passing of this By-Law, and shall be payable at such place, either in the Dominion of Canada, Great Britain or the United States of America, as may be designated in the coupons or have attached to them coupons for the payment of interest and the signatures to the interest coupons may be either written, stamped, printed or lithographed on the rate of four per cent. per annum from the date thereof, which interest shall be payable half-yearly at such place, either in the Dominion of Canada, Great Britain or the United States of America, as may be expressed in the debenture and coupon.

6. It shall be lawful for the said Mayor to cause the said debentures and the interest coupons, either or both, to be made payable at such place, either in the Dominion of Canada, Great Britain, or the United States of America, as may be expressed in the debenture and coupon.

7. It shall be lawful for the Mayor of the said Corporation to dispose of the said debentures at a rate below par, and to authorize the said Mayor to put out or to cause to be put out for sale, by public auction or otherwise, the said debentures and the interest coupons of the said debentures at such prices as may be determined by the Council of the said Corporation.

8. So much of the moneys collected for and received by the City Treasurer under the provisions of the said "Sewers By-Law, 1902" (No. 400) as shall, after complying with the directions contained in the said "Sewer Loan Guarantee By-Law, 1902," and "Sewer Loan Guarantee By-Law, 1903," be sufficient to provide the annual interest on the moneys from time to time borrowed on the security of the said debentures and the annual sinking fund on the said debentures, the principal moneys due upon the said debentures, he set aside by the said City Treasurer and placed by him in a separate account with the bankers of the Corporation of Victoria, and thereon shall be paid the coupons or interest upon the said debentures or borrowed moneys, at such times and on such days as may be determined by the Council of the said Corporation.

9. This By-Law shall before the final passing thereof, receive the assent of the electors of the said Corporation, in the manner provided for in the Municipal Clauses Act, and shall take effect on the day after the final passing thereof by the Council of the said Corporation.

10. This By-Law may not be altered or repealed save with the consent of the Lieutenant-Governor in Council.

11. This By-Law shall be cited as the "Sewers Loan Guarantee By-Law, 1907."

Passed the Municipal Council the 17th day of June, 1907.

It Is Not a Mask

The complexion produced by using Shotbolt's Cucumber Toilet Cream is Skin Deep. It is acknowledged generally as the best application for sunburn and freckles, rendering the skin naturally soft and healthy. Gentlemen cannot get a better preparation for use after shaving.

Twenty-five cents a bottle at SHOTBOLT'S, PIONEER DRUGGIST, 59 Johnston Street, Victoria, B. C.

CRISIS OCCURS IN LOGGING INDUSTRY

Operators are Faced With Problem of Heavy Over Production

MILL MEN ARE ALSO AFFECTED

Will Require Million Dollars to Keep Loggers' Association Intact and Keep Up Prices

A crisis has been reached in the logging and lumbering industries of the coast. If the situation from the standpoint of the dealers is to be saved there will have to be immediately raised nearly \$1,000,000 to take care of the overproduction of logs, and to tie up the donkey engines so that independent companies cannot creep in and utilize them. Unless the money can be raised immediately, which is doubtful in the straightened situation of the money market, the last vestiges of control of the situation by the associated dealers will be wiped away, it is stated, and the day of the independent dealers will come again. "When vessels are unable to obtain lumber in British Columbia and go to

the Sound ports to look for it," said one gentleman, "it seems strange to talk of an overproduction. Yet the matter may be easily explained. "Some years ago the loggers bought out most of the plants of the millmen used for taking out the logs. Ultimately they obtained control of the market and then they began to sky their prices until logs reached prohibitive figures. Of course, that worked out its own solution. The millmen have been sending more and more parties into the woods to take out their own logs and when the loggers kept up the size of their cut, there was more of the raw article produced than the mills could take care of."

At the present time it is estimated that there is nearly \$800,000 worth of surplus logs on the market. A meeting was held in Vancouver recently when representatives of the millmen, the loggers and several bank managers were present. Three of the latter undertook to arrange to raise the necessary money to protect the prices of the product. On Saturday night all logging camps operated by members of the British Columbia Loggers' Association are supposed to shut down. The cost of winding up the affairs of the camps will be heavy and much of the \$800,000 if it is available will be expended to that end.

The owners of the lumber mills, even those which are not dependent upon the loggers for their supply of the rough product, are interested in seeing the price of logs maintained. If the supply of logs on hand is slaughtered it will render the operation of a multitude of smaller mills possible. These will be at once erected, those who have a knowledge of the trade believe. The independent mills if they spring up will not be controlled by the prices which other mills set and the result will be a greater competition with the result that the present good prices which lumber obtains will be cut down.

At the present time there is not enough lumber produced to meet the demand. A market in Mexico fostered by the recent inauguration of a Pacific Coast steamship line is making what though now but a small demand,

is still one which if fostered would grow. The Georgia, one of the vessels of the new line has been compelled to get her complement of lumber from Sound ports.

Another problem which the Loggers' association has to meet is to maintain their control of the donkey engines which will be set idle with the interruption of the work in the camps. Few of the loggers own their engines outright and it is estimated that the amount necessary to retain these is about \$350,000.

The danger to the loggers in losing control of these is that independent producers clubbing together might rent them and a rival production estimated at about 10,000 feet of logs per day for every engine at work would be encountered. Already a number of camps upon the island have shut down as, in addition to the logs brought out, several camps had over six months cut in the woods.

The decision to close down the logging camps indefinitely was made by the British Columbia Loggers' Association the first of the present month. It affected sixty-nine camps having a total output of 33,250,000 feet per month. The reason then assigned by the loggers was on account of the small demand, the high wages asked by the men and the increased cost of supplies.
